Public Necessity and Convenience Ordinance in re Motor Vehicles for Hire, and Repealing Ordinances Nos. 8637 and 8750 (New Series).

(Italics indicate proposed changes from Ordinances 8637 and 8750 (New Series).)

Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the issuance of certificate of public convenience and necessity in connection with the issuance of licenses and permits for the operation of motor vehicles engaged in the business of or used for transporting passengers for hire and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing, *but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No.*

6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended, or Section 1 of Ordinance No. 3212 (New Series), as amended, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of a motor vehicle for hire business, in the same class, type and character of service, and thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (New Series), as amended, Ordinance No. 5118 (New Series), as amended, Ordinance No. 3212 (New Series), as amended, and Ordinance No. 6979 (New Series), as amended.

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of August, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and state license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

Section 3. Any applicant for a license or permit to operate a motor vehicle for hire shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to operate a motor vehicle for hire or motor vehicle for hire business, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of motor vehicles for hire shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles

for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any *motor vehicle for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

Said person, firm or corporation shall, not later than the first week in July of each year, and as often as said Board of Supervisors shall direct, file in writing upon a form prescribed by said Board of Supervisors financial statement or statements of such insurance or indemnity or bond or security held or secured by said person, firm or corporation and pay to said Clerk the sum of \$5 to cover the costs and expense of examining said statements.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 8. Ordinance No. 8637 (New Series), approved December 20, 1929, and Ordinance No. 8750 (New Series), approved May 26, 1930, are hereby repealed.

Section 9. This ordinance shall take effect immediately.

Per Diem Men's Ordinance.

Also, Bill No. 9430, Ordinance No. 9019 (New Series), as follows:

An ordinance fixing and establishing a five-day working week and a monthly basis for computing the compensation of certain classes of employees of the City and County of San Francisco heretofore paid on a per diem basis, and regulating compensation for emergency overtime work.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the basis of compensation for those particular classes of employees listed in Budget Ordinance No. 9001 for the fiscal year 1931-32, and in Ordinance No. 9002, making appropriation from the County Road Fund for street repair and maintenance during the fiscal year 1931-32, whose rates of compensation are therein provided for on a per diem basis, is hereby fixed and established on a monthly basis of $\frac{1}{12}$ of the annual appropriation made in said budget ordinance and in said Ordinance No. 9002 for each of said employees. Where the annual appropriation made in said budget ordinance under any specific item number, and the annual appropriation made in said Ordinance No. 9002 constitutes a total annual wage for more than one employee, the amount so appropriated for each employee of the class so listed shall be determined by dividing the total appropriation by the number of employees so listed.

Section 2. That a five-day working week, comprising Monday, Tuesday, Wednesday, Thursday and Friday of each week, is hereby established for the classes of employees referred to in Section 1 of this ordinance, and the wages or compensation to be paid such employees, whether paid semi-monthly or monthly, shall, beginning July 1, 1931, be thereafter computed on the basis that the working days for the year shall be determined by deducting from the full number of days of the

fiscal year all Saturdays and Sundays and the following generally recognized holidays: New Year's Day, Decoration Day, Independence Day, Labor Day, Admission Day, Thanksgiving Day and Christmas, and said employees shall, in all cases where it is possible, be provided five full days' employment each week; provided, however, that should any of said employees fail to perform actual service for the City and County for a full five-day week after allowance is made for Saturdays, Sundays and the said generally recognized holidays, the compensation of such employees for the time actually worked during the current semi-monthly or monthly period shall be computed on the basis of the proportion of the full monthly compensation that the time actually worked bears to the total actual working days of the current month. Provided further, that no deduction shall be made for time allowed such employees for annual vacations.

Section 3. Eight hours shall constitute the maximum number of hours of labor for any one working day. Where, by reason of some particular emergency, employees of the classes referred to in this ordinance are required to work more than eight hours during any one working day, or to work on Saturdays, Sundays or the said generally recognized holidays, then such employee shall be allowed double time for the overtime so worked. Any department allowing overtime, or hiring employees of the classes herein mentioned on an overtime basis, shall each week report to the Finance Committee of the Board of Supervisors the nature of the emergency requiring said overtime, the name of each employee engaged in such overtime work, the extent of such overtime, and the amount of compensation allowed therefor.

Section 4. When additional employees of the classes referred to in this ordinance are required by any of the departments mentioned in said budget ordinance or said Ordinance No. 9002, except employees for service in the municipally owned utilities, said employments shall be upon the same terms and under the same conditions as herein specified.

Section 5. This ordinance shall become effective immediately upon its passage.

Supervisor Shannon presented:

Resolution No. 34668 (New Series), as follows:

Whereas, the City of San Francisco is recognized throughout the

Nation as a highly cultured community, especially in the field of music and opera; and

Whereas, that although heretofore there has been no organization existing in this city of a permanent character and devoted to what is known as "light opera," as distinguished from "grand opera," there is now in existence an organization duly and regularly incorporated under the laws of the State of California known as the San Francisco Light Opera Company, without capital stock and not operated for profit, its incorporators all being citizens and residents of San Francisco; and

Whereas, the prime motives and purposes of the San Francisco Light Opera Company are: (a) to further the interests of all good music by the establishment of a permanent light opera company for the presentation of public performances of light opera, comic opera, festivals, concerts and other musical performances to be sung in the English language; (b) to encourage and foster every manifestation of California operatic talent and to provide such operatic talent with training under the supervision of expert musical and stage directors; (c) to encourage our native musical genius and develop our musical art by awakening and promoting popular and artistic interest in light opera and other music sung in the language of our country; and

Whereas, it is earnestly believed that the residents of San Francisco and the city's interests will be greatly benefited through the organization and entertainments to be given by the San Francisco Light Opera Company; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco strongly endorse the plans and ideals of the San Francisco Light Opera Company to revive and promote light opera, and believe that such revival will be a boon to our citizens, and, therefore, should receive their hearty support; that when the enterprise is in full operation it will unquestionably be the means of giving permanent employment to many professional people and others, thus furnishing the residents of the city with high-class music and entertainment, and generally add to our progressive spirit.

Adopted by the following vote:

On recommendation of Police Committee.

(Italics indicate proposed changes from Ordinances 8637 and 8750 (New Series).)

Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the issuance of certificate of public convenience and necessity in connection with the issuance of licenses and permits for the operation of motor vehicles engaged in the business of or used for transporting passengers for hire and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing, *but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended, or Section 1 of Ordinance No. 3212 (New Series), as amended*, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of *a motor vehicle for hire* business, *in the same class, type and character of service*, and thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (New Series), as amended, Ordinance No. 5118 (New Series), as amended, Ordinance No. 3212 (New Series), as amended, and Ordinance No. 6979 (New Series), as amended.

Every person, firm or corporation holding a license authorizing the

operation of a motor vehicle for hire shall, on or before the 1st day of August, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and state license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

Section 3. Any applicant for a license or permit to operate a motor vehicle for hire shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to operate a motor vehicle for hire or motor vehicle for hire business, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of motor vehicles for hire shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the motor vehicle or motor vehicles for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County

of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle *for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

Said person, firm or corporation shall, not later than the first week in July of each year, and as often as said Board of Supervisors shall direct, file in writing upon a form prescribed by said Board of Supervisors financial statement or statements of such insurance or indemnity or bond or security held or secured by said person, firm or corporation and pay to said Clerk the sum of \$5 to cover the costs and expense of examining said statements.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 8. Ordinance No. 8637 (New Series), approved December 20, 1929, and Ordinance No. 8750 (New Series), approved May 26, 1930, are hereby repealed.

Section 9. This ordinance shall take effect immediately.

Supervisor Jefferson E. Peyser moved the following amendment:

Section 6. Unless otherwise provided by ordinance, no person, firm

or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle for hire unless and until such person, firm or corporation shall:

Each of said right of way easements shall include, in addition to the rights herein specified, the rights of ingress to and egress from said rights of way over adjacent lands of the City, with the provision that the purchaser or purchasers of said rights of way, or the officers, employees, contractors or servants of said purchaser or purchasers, shall, in the exercise of said rights, be limited to the use of existing roads and lanes across said lands; or, if no such roads or lanes be available, then to

such routes thereover as shall be most convenient and at the same time cause the least possible injury to said lands of the City, or to the crops, trees, buildings or other structures growing or situate thereon. In the case of the right of way, easements "Third" and "Fourth" hereinbefore described, said purchaser or purchasers shall be granted the rights to trim trees and foliage wherever necessary to avoid interference with power lines or telephone lines, and to place and maintain gates in all fences that cross or shall cross said rights of way, in addition to the rights of ingress and egress to be granted as in this paragraph provided.

Each of said right of way easements shall be sold and conveyed subject to the following reservations and conditions, which shall be inserted in the conveyance thereof to the purchaser; the term "structure" used therein shall be taken to mean said gas pipe line or lines, said telephone line or said electric power line, respectively, with their appurtenances, as the case may be:

"Reserving, however, to the City the right to plant, cultivate and harvest crops or grass, hay or grain upon the right of way herein granted, and the right to construct, reconstruct, install, maintain, repair, renew, operate and use, from time to time, pipes, pipe lines, conduits, power lines, telephone lines, roads, roadways or other structures, but not building or wells, across, over or under said right of way and said structure of the purchaser, at the option of the City; it being expressly understood and agreed that if any structure of the purchaser be so located that it shall hereafter become necessary to change, alter, move or reconstruct the same in order to allow the City to exercise and enjoy the rights, but not those relating to agriculture, herein reserved, then the purchaser, upon the request of the City so to do, shall, within a reasonable time, change, alter, move or reconstruct said structure at the purchaser's expense; and the City, upon failure of the purchaser so to do after reasonable notice, may by contract or otherwise, change, alter, move or reconstruct said structure at the expense of the purchaser, which expense the purchaser shall pay on demand.

"This grant is made subject to the following conditions, which become binding upon the purchaser upon his acceptance and recording of this indenture:

"First: That the purchaser shall repay the City, on demand, the reasonable value of animals, crops, trees, buildings or other structures injured, damaged or destroyed by the purchaser, his officers, employees, contractors or servants, in the exercise of any right herein conveyed.

"Second: That the purchaser shall do no work of constructing, reconstructing, installing or renewing said structure except in accordance with plans and/or specifications therefor first submitted to and approved by the Commission, Board or officer of the City having jurisdiction; provided, however, that said plans and/or specifications shall be returned disapproved in writing with reasonable objections thereto within ten days after submission, otherwise they shall be deemed approved within the meaning hereof. The provisions hereof shall not apply to emergency work.

"Third: That the purchaser shall indemnify and save harmless the City, or any Commission, Board, officer, servant or employee thereof from any and all claims, liabilities, or expenses, whether for injuries, damages or otherwise, caused by or resulting from any act, negligence or omission of the purchaser, his officers, employees, contractors or servants, in the exercise of any right herein conveyed.

"Fourth: That the purchaser shall not abandon nor discontinue the use of said structure for the purposes hereinbefore stated for any period of three consecutive years, and that in the event of such abandonment or discontinuance of use the easement and rights herein granted shall forthwith cease and determine, and the City, without prejudice to any other remedy it may have, may take possession of

the right of way herein conveyed and remove the purchaser's structure therefrom.

"Fifth: That the right of way herein described is conveyed subject to any rights, right of way, leases and agreements heretofore granted or made by the City or its predecessors in interest.

"The rights, reservations, conditions and obligations herein set forth shall inure to the benefit of and bind both parties hereto and their successors and assigns."

Section 2. The City Attorney is hereby directed to prepare the necessary conveyance and supervise the delivery of deed upon payment of the purchase price as aforesaid.

Section 3. This ordinance is passed in conformity with Ordinance No. 8985 (New Series), and with the Notice of Sale of Right of Way Easements over Lands Belonging to the City and County of San Francisco published in accordance with the Charter, and to which Notice and Ordinance reference is hereby made.

Section 4. This ordinance shall take effect immediately.

**Excerpt of Proceedings in the Matter of the Rule Governing
Excuse of Supervisors to Vote.**

Mayor Angelo J. Rossi presiding.

SUPERVISOR HAYDEN: Mr. Mayor, I want to move that this Board commends the good business judgment of the Airport Committee in making this arrangement with the Century Pacific Airlines, with the understanding, of course, it is temporary, and covering a period of six months, after which time it was hoped that a permanent lease will be entered into through the Mayor and the Board of Supervisors.

CHAIRMAN: The Public Utilities Committee will take care of it. Do I hear a second to the motion?

SUPERVISOR GALLAGHER: I second the motion.

SUPERVISOR SHANNON: What is the motion?

SUPERVISOR HAYDEN: That the Airport Committee be commended for their action.

SUPERVISOR SHANNON: I like to have it referred to the Building Committee—didn't you say the Finance Committee was joining in that?

SUPERVISOR HAYDEN: No, no. I am talking about the Airport Committee.

CHAIRMAN: Is there any objection made to the motion?

SUPERVISOR GALLAGHER: I would like to be excused from voting on that.

SUPERVISOR COLMAN: I think myself it is good business under the circumstances. After all, the result is a minor matter. I would like to inquire, however, if Uhl wants to say anything on that subject.

MR. UHL: I came to listen today.

SUPERVISOR COLMAN: I feel, under the conditions there, I do not know whether they would succeed or not under any other terms, not knowing them, but I do not doubt that in all probability they would have gone elsewhere for the same terms and practically would have succeeded in getting them. At least, I do not know that surely, but that is the impression that I have. Well, under those conditions, when the Airport is very quiet and when commercial flying as a whole is laid up and when other lines are not doing well, a six months' trial does not seem to me, as I understand it, to be anything but good business. I have been on the Committee and I have considered it carefully and that is the only action left to the Committee to take. I would like to ask Mr. Spaulding if he has anything to say?

SUPERVISOR SPAULDING: I might say that since that line has been there, last week we have had five new ships come to the field and there is one large line now negotiating with me for the possibility of future use of our field.

SUPERVISOR SHANNON: Mr. Chairman:

CHAIRMAN: Supervisor Shannon.

SUPERVISOR COLMAN: I want to ask another question.

SUPERVISOR SHANNON: I just want to say a word. I think Mr. Colman will yield. I think, Mr. Mayor, and Members of the Board, that it is an excellent contract that the Committee has entered into. We all know that things have not been running any too comfortably at the Airport and, as Mr. Spaulding has stated, there has been adverse comment. We also know that buildings are difficult to rent sometimes, and a year's rental is given on the condition that the parties will take it for a period at the expiration of their trial. So it is a business venture. We are into it. We have got considerable money invested in it and the vote of the people has been given on it. I think that the Committee should be commended for what they have done, and the last statement of Mr. Spaulding shows that it has already attracted other business to it, and increased the business of the Airport.

SUPERVISOR COLMAN: I was just going to ask: There is in no way any interference with other business? We can go ahead and increase the Airport business and this acts as a help to that?

SUPERVISOR SPAULDING: No question about it.

CHAIRMAN: Any objection to the motion made by Supervisor Hayden?

SUPERVISOR GALLAGHER: Asked to be excused. Any objection? (No response. Chairman brings down gavel.)

SUPERVISOR GARRITY: Mr. Chairman.

CHAIRMAN: Supervisor Garrity.

SUPERVISOR GARRITY: I have a letter here from Miss Butler, and I move it be referred to the Board of Public Works.

SUPERVISOR COLMAN: Mr. Chairman, just a moment. We do not excuse people from voting. I do not want to go on record as consenting to that. I do not mean in your case, Mr. Gallagher, but I think none of us have the right to be excused from voting. I do not want to go on record as consenting to that, as a matter of precedence.

SUPERVISOR GALLAGHER: Let me tell you, you can on a resolution or motion. The only thing you can compel a man to vote on is an ordinance. That is all.

SUPERVISOR HAYDEN: Look at your rules and see.

SUPERVISOR GALLAGHER: Look at them? Where?

SUPERVISOR COLMAN: I was not aware of that. We all have to vote on every question that comes before us and I would like to have a roll call on Mr. Gallagher's request to be excused. That is a serious question, Supervisor, and it is not personal, I assure you. I bring it up like any other member of the Board. I want to go on record as being opposed to the policy of excusing any member from voting, other than a brand new member.

SUPERVISOR SHANNON: I rise to a point of order. The gentleman has made a motion. It has not been seconded and he is now—

SUPERVISOR COLMAN: Mr. Chairman, I want to be recorded as being opposed to it. Am I within my rights in asking for a roll call on Supervisor Gallagher's request?

CHAIRMAN: I think if any member desires to be excused, you must get unanimous consent.

THE CLERK: Unanimous consent.

SUPERVISOR SHANNON: Primarily, I think we should discuss it.

SUPERVISOR COLMAN: What is your ruling?

CHAIRMAN: Why, it is not a legislative matter, Supervisor Colman.

SUPERVISOR GALLAGHER: That is it. Thank you. You can let it alone.

SUPERVISOR COLMAN: Have I a right to be excused from voting on certain matters?

CHAIRMAN: I imagine so.

SUPERVISOR SHANNON: Try it.

SUPERVISOR COLMAN: I would like an opinion on that.

CHAIRMAN: I would like to read the rules of the Board under the Charter provision. You are asking me a question.

SUPERVISOR SUHR: Has Supervisor Colman made a motion just now in reference to Supervisor Gallagher?

SUPERVISOR COLMAN: I asked for a roll call on whether he should be excused or not. If that motion is in order I vote against excusing him from voting.

SUPERVISOR SHANNON: Oh, you are opposing it?

SUPERVISOR COLMAN: What is your ruling?

SUPERVISOR SHANNON: Mr. Chairman, I rise to a point of order. Mr. Gallagher asked to be excused from voting. The matter was carried and the Mayor rapped the gavel, and your matter, Mr. Colman, is out of order.

CHAIRMAN: That is correct. I announced it and there was no objection to it.

SUPERVISOR SHANNON: You are out of order.

SUPERVISOR COLMAN: You mean my objection to the action of the Board is out of order?

CHAIRMAN: Supervisor Colman, when I asked if there was any objection to the motion made by Supervisor Hayden, Supervisor Gallagher requested to be excused and there was no objection.

SUPERVISOR COLMAN: As soon as he asked to be excused, you said, "Any objection." Mr. Gallagher then said, "I request to be excused." I protest against him being excused. I move we rescind our action in excusing Mr. Gallagher from voting. I am serious, Mr. Mayor.

CHAIRMAN: Make your motion.

SUPERVISOR COLMAN: It is a dangerous precedent if members of this Board can stand up here and be excused from voting. That is a very dangerous thing. The Charter provides that on every question we should answer "Yes" or "No" in audible tone and this is a very bad practice. I do not want to be a party to it. It is a serious matter. It may not be in matters like this but there may be other matters in which a member might want to be excused. He should be compelled, if he is present now, to vote. If that is not correct—

SUPERVISOR GALLAGHER: I can exercise the prerogative so often exercised by jumping out of the door, and I do not want to do that.

SUPERVISOR COLMAN: And not me.

CHAIRMAN: Do you wish to be recorded as voting "No" against Supervisor Gallagher voting "No"?

SUPERVISOR COLMAN: I move that the Board rescind its action that Supervisor be excused from voting.

SUPERVISOR PEYSER: At the very first meeting I attended after I had the honor of being appointed a member of this Board, some question arose and, of course, I did not have anything to guide me and I asked if I could not be excused and I remember distinctly that Supervisor Gallagher, the parliamentarian of this Board—I remember distinctly saying to Supervisor Gallagher, "Can I be excused from voting", and the Supervisor then told me that no member of the Board could be excused from voting and for that reason I said very little and cast a ballot—cast my vote.

SUPERVISOR GALLAGHER: It was a resolution?

SUPERVISOR SHANNON: I move that consideration of the motion be adjourned one week.

SUPERVISOR GALLAGHER: I second it.

SUPERVISOR GARRITY: Question?

CHAIRMAN: The motion is that made by Supervisor Shannon and seconded by Supervisor Gallagher that consideration of this motion be adjourned for one week. Call the roll.

THE CLERK: Andriano?

(No response.)

THE CLERK: Breyer?

SUPERVISOR BREYER: No.

THE CLERK: Colman?

SUPERVISOR COLMAN: No.

THE CLERK: Gallagher?

SUPERVISOR GALLAGHER: Aye.

THE CLERK: Garrity?

SUPERVISOR GARRITY: Aye.

THE CLERK: Havenner?

SUPERVISOR HAVENNER: No.

THE CLERK: Hayden?

SUPERVISOR HAYDEN: No.

THE CLERK: McGovern?

SUPERVISOR MCGOVERN:

(No response).

THE CLERK: McSheehy?

SUPERVISOR MCSHEEHY: No.

THE CLERK: Miles?

(No response.)

THE CLERK: Peyser?

SUPERVISOR PEYSER: No.

THE CLERK: Power?

SUPERVISOR POWER: No.

THE CLERK: Roncovieri?

(No response.)

THE CLERK: Shannon?

SUPERVISOR SHANNON: Aye.

THE CLERK: Spaulding?

SUPERVISOR SPAULDING: No.

THE CLERK: Stanton?

SUPERVISOR STANTON: Aye.

THE CLERK: Suhr?

SUPERVISOR SUHR: No.

THE CLERK: Ten Noes, four Ayes, four Absent.

SUPERVISOR COLMAN: My original motion is that the permission of Mr. Gallagher to be excused be rescinded.

SUPERVISOR RONCOVIERI: Have you got it there?

THE CLERK: We have got nothing but the ruling of the Chair. He asked if there was any objection and rapped the gavel.

SUPERVISOR RONCOVIERI: In voting on that matter I think it would be a good thing to lay it over and find out just how far we can go in a case of this kind. I think you should lay it over a week and let the City Attorney decide.

SUPERVISOR HAVENNER: In all seriousness, I move that this motion be referred to the Rules Committee with instructions to bring back a report at the next meeting.

SUPERVISOR GARRITY: Second it.

SUPERVISOR COLMAN: I want to state that my question is very serious and I think a grave question has been brought up here. Although we treat it lightly, it is not to be treated lightly because, as I understand it, from my experience, there is one rule never violated on this Board if the member is present, unless as you say, he does not run out, but I do not run out, but Mr. Gallagher asked to be excused and it is a very dangerous precedent to start, and that is why I made that motion, though I am in favor of this vote of commendation.

SUPERVISOR SPAULDING: Mr. Mayor, I am against that on this ground: Are you going to lay that over a week when the Airport is going to get a lot of unfavorable publicity during that week? If these men are against this, against progress, and against bringing industry to San Francisco, let them say "Yes" or "No". There is nothing else back of the motion. There could not be. You have got people coming in here. You have got industry coming in here, now why have unfavorable publicity in the papers all next week, with the possibility of the Century Airline saying, "Well, if that is the kind of deal—"

SUPERVISOR COLMAN: I rise to a point of order and special privilege. That statement is ridiculous.

SUPERVISOR SPAULDING: It is not ridiculous.

SUPERVISOR COLMAN: It is absolutely ridiculous, and it is false.

SUPERVISOR HAVENNER: I rise to a point of order.

SUPERVISOR COLMAN: I voted for Supervisor Spaulding's commendation, but I refuse to allow anyone to be excused from voting.

SUPERVISOR HAVENNER: A point of order, Mr. Mayor.

CHAIRMAN: What is your point of order?

SUPERVISOR HAVENNER: I think the Supervisor entirely misunderstood my motion. My motion does not carry his resolution back to Committee. My motion merely refers the question raised by Supervisor Colman to the Rules Committee for ruling, because we voted on it.

SUPERVISOR SPAULDING: Mr. Gallagher asked to be excused.

SUPERVISOR HAVENNER: That has nothing to do with it.

SUPERVISOR SPAULDING: I am not referring to you. I am referring to Supervisor Gallagher.

SUPERVISOR HAVENNER: A motion like this cannot hold up your motion.

SUPERVISOR GALLAGHER: No resolution is adopted.

SUPERVISOR SHANNON: What is before the Board, Mr. Mayor?

SUPERVISOR GARRITY: Adjournment.

CHAIRMAN: Just a moment. We might find a rule here yet.

SUPERVISOR GALLAGHER: Well, if you find it I will tell you how to get around it.

SUPERVISOR HAVENNER: There is before the Board a motion for reference to the Rules Committee.

SUPERVISOR SHANNON: No objection.

CHAIRMAN: Members of the Board, you have it in your own rules, No. 27: "Every member, when a question is put, shall vote for or against it, unless disqualified by the Charter." You are not disqualified by the Charter, Mr. Gallagher.

SUPERVISOR GALLAGHER: Call the roll. You will find out. I desire to be excused on the ground of personal interest.

SUPERVISOR HAYDEN: Personal interest in the Century Airport Company?

SUPERVISOR GALLAGHER: That is all I need to say under the Charter. You sit down and mind your business.

SUPERVISOR HAYDEN: We are getting to a point where members are taking an opportunity to refuse to vote under technical excuses. There is no reason in the world to excuse Supervisor Gallagher, under our rules, unless he has a personal interest in the concern, financial interest in the concern.

SUPERVISOR STANTON: I was excused on a matter of personal interest which came before this Board, in which his family was personally interested. Now, if Supervisor Gallagher is not financially and personally interested in the Century Pacific, he has no right to be excused, and if he is merely by words refusing to meet the issue like a man, then he can take that responsibility.

CHAIRMAN: After reading that rule, unless the members want to rescind their action, under that particular section the ruling will be that every member must vote, and Supervisor Colman objected to Supervisor Gallagher being excused. Now if Supervisor Gallagher wants to vote, that is up to him.

SUPERVISOR GALLAGHER: Supervisor Gallagher votes "No".

THE CHAIRMAN: Every member should vote. Proceed with the roll call.

SUPERVISOR HAVENNER: Mr. Chairman.

CHAIRMAN: Supervisor Havenner.

SUPERVISOR HAVENNER: There has been no issue in reference to this matter, in reference to the Century Pacific Lines. The gentlemen who are interested in that concern represent a corporation that invested possibly upward of \$750,000 and it was not a very easy task to convince them that they should have their terminal at the San Francisco Airport. I know that. They met in my office and there were a number of hotel men who were presented and representatives

of the Chamber of Commerce and other civic organizations that were interested in this matter at the time, and they were very desirous that this company select the San Francisco Airport as the terminal. Now, if it was not for the activity on the part of the Airport Committee, together with all of these other organizations, I am sure that they would not have entered into the contract which you have now before you. They were very much pleased to have the cooperation of all these organizations and of the Airport Committee and the members of the Board who knew about it. The increase in service, in my opinion, was a history-making event for San Francisco, and the day that I went down there and seen all these airplanes—I believe there were ten or twelve there and it was quite a sight—I was very much pleased and I believe that anyone would be very pleased because it gave the airport the appearance of a real airport, and they should receive all the encouragement possible, and I cannot see how anyone would object to the arrangements made, because, in my opinion, it was good business, and I am pleased to hear Supervisor Spaulding state today that they are running about 75 per cent capacity. The president of the corporation stated that it appeared to be a profitable venture, that they did not expect to make any money to start with but that they were going to build more ships and have hourly service between San Francisco, Fresno, Bakersfield, Los Angeles and down to San Diego, and we should not look upon that as a mere joke or anything like that. It is good business, and I am sorry that this little discussion took place here a few moments ago and I want to join in with the members of the Board to compliment the Airport Committee for the good business they did with the Century.

SUPERVISOR GALLAGHER: Mr. Chairman, I desire to have the Board remember that on the day these gentlemen were here, well, I think my words of commendation speak for themselves, and I went as far as a person could. I have not even spoken a word of criticism as yet. I know that the ordinance under which this agreement was made is invalid, and you know it, and you are so advised by the City Attorney. I know that this agreement was made without full knowledge of the Board. It might have approved it, but I cannot say whether it is a wise policy in view of the great deficit that confronts this venture. I cannot say whether it is or not. I do not desire to retract the word of my commendation but I do desire to escape any inference of undue criticism until I look into it. The facts are, Mr. Chairman, that you look back in the record and you will find that on a simple motion, times without number, members of the Board have been excused.

(Further discussion.)

SUPERVISOR MCSHEEHY: If I receive a second, I will move at this time that our Clerk be instructed to confer with the City Attorney in reference to that particular rule that you just read out and have an opinion from him as to the rights of a member of this Board in being excused.

CHAIRMAN: I think that is a very good suggestion. Proceed with the roll call.

Report of Special Committee on Appraisal.

Upon being called, and those petitioners who answered being heard, these petitions were referred to a special committee on appraisal, composed of Mr. Joseph J. Phillips, chairman, A. D. Disston, Geo. H. Thomas, Jr., and the Assessor, Russell L. Wolden. At the conclusion of the hearing the committee presented the following report:

San Francisco, July 20, 1931.

To the County Board of Equalization, San Francisco, California.

Gentlemen: Six hundred and ninety-one applications for reduction of assessment have been filed with your honorable Board.

Of this total five were withdrawn, one of which covered a question of law rather than value; nine applications covered buildings that were in existence on the first Monday of March but which have since been demolished or removed. This left six hundred and seventy-seven applications for consideration and investigation by your Appraisal Committee.

A list of reductions recommended, totaling twenty-two in all, is attached hereto and made a portion of this report, as follows:

There is attached hereto and submitted as a portion of this report recommended reduction on nine structures that have been removed or demolished since the first Monday in March.

It is not within the power of the Board to completely eliminate any assessment, but the Board has the right, under the circumstances, to reduce the existing assesment to a nominal figure, and it is recommended that this course be followed.

SPECIAL ORDER—3 P. M.

Public Necessity and Convenience Ordinance in re Motor Vehicles for Hire, and Repealing Ordinances Nos. 8637 and 8750 (New Series).

On recommendation of Police Committee.

(Italics indicate proposed changes from Ordinances 8637 and 8750 (New Series).)

Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the issuance of certificate of public convenience and necessity in connection with the issuance of licenses and permits for the operation of motor vehicles engaged in the business of or used for transporting passengers for hire and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing, *but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended, or Section 1 of Ordinance No. 3212 (New Series), as amended*, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of a motor vehicle for hire business, *in the same class, type and character of service*, and thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (New Series), as amended, Ordinance No. 5118 (New Series), as amended, Ordinance No. 3212 (New Series), as amended, and Ordinance No. 6979 (New Series), as amended.

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of August, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and state license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses

for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

Section 3. Any applicant for a license or permit to operate a *motor vehicle for hire* shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to *operate a motor vehicle for hire or motor vehicle for hire business*, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of *motor vehicles for hire* shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be

revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle *for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

Said person, firm or corporation shall, not later than the first week in July of each year, and as often as said Board of Supervisors shall direct, file in writing upon a form prescribed by said Board of Supervisors financial statement or statements of such insurance or indemnity or bond or security held or secured by said person, firm or corporation and pay to said Clerk the sum of \$5 to cover the costs and expense of examining said statements.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 8. Ordinance No. 8637 (New Series), approved December 20, 1929, and Ordinance No. 8750 (New Series), approved May 26, 1930, are hereby repealed.

Section 9. This ordinance shall take effect immediately.

Supervisor Peyser's Proposed Amendment.

Supervisor Jefferson E. Peyser moved the following amendment:

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle for hire unless and until such person, firm or corporation shall:

(a) File with the Board of Supervisors and thereafter keep in full force and effect a policy of insurance or bond in such form as the Board may deem proper and executed by a surety or sureties approved by said Board, insuring the public against any loss or damage that may result to any person or property from the operation of such vehicle or vehicles, provided the maximum amount of recovery in such policy or insurance or bond specified shall not be less than the following sums, i. e.:

For the injury to any one person or the death of any one person in any one accident.....	\$ 5,000.00
For the injury to two or more persons or the death of two or more persons in any one accident.....	\$10,000.00
For the injury or destruction of property in any one accident	\$ 500.00

It shall be unlawful for any owner to operate or cause to be operated, any vehicle without having a policy or bond as described in this section, in full force and effect at all times during the operation of such vehicle.

Referred to Finance Committee.

Amend Section 1:

(b) For the licensing for the operation of motor vehicles engaged in the business of, or used for, transporting passengers for hire, when such motor vehicles are operated under and by reason of certificates of public convenience and necessity issued by the Railroad Commission of the State of California, provided, however, that this clause shall be construed to create an exception only to the extent, character and type of operation expressly prescribed by the certificate or certificates issued by said Railroad Commission and shall be limited by and be entirely within the scope of said certificate or certificates issued by said Railroad Commission.

Referred to Police Committee.

Minority Report.

Consideration of minority report by Supervisor Havenner for the construction of a pipe line over "Altamont Pass" route to connect with the westerly terminus of the Hetch Hetchy pipe line.

Majority Recommendation.

Supervisor Colman, seconded by Supervisor Hayden, moved passage to print of the following recommendation of the Joint Committee on Public Utilities and Finance:

Board of Public Works to Prepare Plans and Specifications and Estimate of Cost of Pipe Line as an Integral Part of Hetch Hetchy Project, Corral Hollow Route.

Bill No. 9456, Ordinance No. ——— (New Series), as follows:

Directing the Board of Public Works to prepare plans and specifica-

tions for, and an estimate of the cost of, a pipe line to be an integral part of the Hetch Hetchy Water Project, and to commence at the bottom of the Thomas shaft, in the Coast Division of the Hetch Hetchy aqueduct tunnel, and to continue over and along the route submitted by the City Engineer through the Board of Public Works, pursuant to Ordinance No. 9907 (New Series), and known as the Corral Hollow route, and to connect with the west portal of said aqueduct tunnel at Alameda Creek, together with plans and specifications for and an estimate of the cost of the necessary pumping equipment to operate said pipe line, together with descriptions of the necessary rights of way for said pipe line and said pumping equipment, and an estimate of the cost thereof, and further directing said Board of Public Works, upon the completion of said plans, specifications and estimates, to advertise for bids and enter into a contract or contracts for the acquisition of the necessary materials and for the construction of said pipe line and for the installation of said pumping equipment; and to acquire the necessary rights of way for said pipe line and pumping equipment, and making the cost of the same a charge against the 1928 Hetch Hetchy Bond Fund.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works of the City and County of San Francisco is hereby directed to prepare plans and specifications for, and an estimate of the cost of, a pipe line to be an integral part of the Hetch Hetchy Water Project, and to commence at the bottom of the Thomas shaft, in the Coast Division of the Hetch Hetchy aqueduct tunnel, and to continue over and along the proposed route submitted by the City Engineer through the Board of Public Works, pursuant to Ordinance No. 9907 (New Series), which said route is designated and known as the "Corral Hollow Route," and to connect with the continuation of said aqueduct tunnel at the westerly portal thereof, at Alameda Creek; together with plans and specifications for and an estimate of the cost of the necessary pumping equipment to operate said pipe line to the capacity hereinafter set forth.

Section 2. That said pipe line shall be of sufficient size and capacity to carry and deliver forty-five million gallons of water daily.

Said Board of Public Works is further directed, upon the completion of said plans, specifications and estimates, to advertise and accept bids for and to enter into a contract or contracts for the acquisition and furnishing of the necessary materials for said pipe line and pumping equipment, and for the construction and installation of the same.

Ayes—Supervisors Breyer, Canepa, Colman, Gallagher, Garrity, Havenner, Hayden, McGovern, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton, Suhr—16.

No—Supervisor McSheehy—1.

Absent—Supervisor Andriano—1.

Explanation of Vote.

SUPERVISOR MCSHEEHY: I am voting against this measure not because I am opposed to the construction of a pipe line at this time, but because I favor a larger pipe line, of greater capacity than the one proposed, and over a different and superior route. I am voting *no* in reference to the report recommended by the Joint Committee of Utilities and Finance for the 45,000,000-gallon Corral Hollow route, over 1600-foot elevation, for the following reasons:

1. It is a travesty on the engineering profession to consider pumping 45,000,000 gallons of water per day to a height of 1600 feet with a net pumping lift of 1325 feet, against a pumping plan of 740 feet at Altamont Pass with a net pumping lift of 440 feet.

2. It is a positive injustice to the taxpayers of San Francisco to create and authorize an expenditure of 1,309,090 dollars in excess for the construction of a pipe line as outlined in the report recommended.

3. A pumping cost of \$421,000 a year will be required for the recommended Corral Hollow route, and this huge sum will have for its purpose but one object, and that is to create an issue for the bonding of the City for a sum of perhaps not less than \$10,000,000.

4. Every estimate in reference to the moneys required for the finishing of this project, and the time specified, given by the Engineer, have proven to be erroneous, and his last statement of \$4,000,000 for the completion of this work, on examination of his own figures, can be proven to cost closer to \$10,000,000.

5. The Corral Hollow route, for 45,000,000 gallons daily, is simply a subterfuge to create a pumping charge that has but one purpose, to force the people to vote for the bonding of our City for an additional

\$10,000,000 to relieve them from this unfair and unnecessary pumping cost.

6. The Altamont Pass route, over a 740-foot elevation with a 440-foot net pumping lift, requires a pumping charge of only \$194,000 dollars per year for 60,000,000 gallons of water daily, against \$421,000 for the Corral Hollow route for 45,000,000 gallons of water daily.

7. The 60,000,000-gallon Altamont Pass route, at a 740-foot elevation, gives us a perfectly complete Hetch Hetchy water system, constructed as it should have been done in the first place as far as the Coast Range section is concerned, and would require no bond issue whatever at the present time or at any future time, as far as we can see, within the present generation, at least.

Explanation of Vote.

SUPERVISOR HAVENNER: I was one of those first advocating the construction of an emergency pipe line at this time in order to safeguard San Francisco from a water shortage in the immediate future. I am glad the decision has been made by the Board of Supervisors to bring in this emergency supply. It would be fatal, I think, to not bring it in. I very strongly disagree, however, with the plan that has been adopted to bring it in, and I cannot understand the logic of the manager of the Water Department in getting up here and smilingly telling us he favors this plan. He is looking at it, apparently, not as manager of the Water Department, but as a friend of the Engineer. Nevertheless, while placed in a position where I strongly disapprove of the method adopted, and while I believe that we are going to be a laughing-stock in San Francisco among engineers and among engineering observers everywhere, I cannot vote, of course, not to bring this emergency supply of water in, and inasmuch as the majority of my colleagues have decided to take the other route, I am going to hold my nose and vote for it.

The following matters were on motion *laid over one week and made a Special Order for 2 p. m.*:

SPECIAL ORDER—3 P. M.

Public Necessity and Convenience Ordinance in re Motor Vehicles for Hire, and Repealing Ordinances Nos. 8637 and 8750 (New Series).

On recommendation of Police Committee.

(Italics indicate proposed changes from Ordinances 8637 and 8750 (New Series).)

Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the issuance of certificate of public convenience and necessity in connection with the issuance of licenses and permits for the operation of motor vehicles engaged in the business of or used for transporting passengers for hire and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing, but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended, or Section 1 of Ordinance No. 3212 (New Series), as amended, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of a motor vehicle for hire business, in the same class, type and character of service, and thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (New Series), as amended, Ordinance No. 5118 (New Series), as amended, Ordinance No. 3212 (New Series), as amended, and Ordinance No. 6979 (New Series), as amended.

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of August, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and state license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

Section 3. Any applicant for a license or permit to operate a motor vehicle for hire shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to operate a motor vehicle for hire or motor vehicle for hire business, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of motor vehicles for hire shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public conveni-

ence and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle *for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

The said City and County will furnish at its own expense all engineers and attendants required for making observations, reading instruments, or recording notes during such test. The said City and County will furnish free of charge to grantee all necessary garbage and refuse for such test.

If the City Engineer should determine that the plant has not met the guarantees on this first test he shall so notify the grantee in writing within five (5) days following the last day of the test period. The said fill and cover shall be done under the direction of and to the satisfaction of the Board of Health of said City and County.

(c) That the plant will be arranged and equipped so that garbage and refuse may be received continuously and at such a rate that at least thirty trucks, such as are now used by the collectors, may be served in one hour without delay.

The People of the State of California do enact as follows:

Section 1. Franchise by legislative body. Every franchise or privilege for the disposal or destruction, or both, of garbage, waste, offal and debris shall be granted by the legislative body of any county or city and county under the terms and conditions in this act provided, and not otherwise.

Section 2. Best bid may be called for. Any such governmental subdivision may, by resolution of its legislative body, call for bids for the granting of a franchise, exclusive or otherwise, for the disposal or destruction, or both, of garbage, waste, offal and debris, according to the terms and conditions set forth in such resolution, for a period of time not to exceed twenty-five years. Thereafter said legislative body shall cause to be published once a week for two successive weeks a notice which shall set forth all of the terms and conditions embraced in said resolution, and the time, date and place for the receiving and opening of sealed bids, which shall not be sooner than four full weeks from date of the first publication of said notice. Upon examination by the legislative body of said bids, the franchise may be awarded to the best bidder. Said legislative body may postpone the granting of said franchise from time to time until said legislative body shall have had a full and complete opportunity to examine into the merits of each bid.

Section 3. Bond. The successful bidder shall file with the said legislative body, upon grant of the franchise, a bond running to the governmental subdivision in an amount and under such terms and conditions as may be prescribed by said legislative body.

Section 6. Repeal. The provisions of any law in conflict with this act are to that extent hereby repealed.

Section 7. Constitutionality of act. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would

have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases may be declared unconstitutional.

Said bids to be filed with the Clerk not later than the 27th day of July, 1931, at the hour of 3 p. m., and said time is hereby fixed as the date and hour for the opening and consideration of said bids.

SPECIAL ORDER—4 P. M.

Mayor's Veto.

Consideration of Mayor's veto of Resolution No. 3464 (New Series), authorizing the Auditor to transfer \$2,700 to meet increased amounts required for ten additional lieutenants in the Fire Department for the fiscal year 1931-1932.

Adopted June 29, 1931, and disapproved July 10, 1931.

Question: Shall the resolution pass notwithstanding the objections of his Honor the Mayor?

Communication.

Supervisor Gallagher presented the following:

July 9, 1931.

Honorable Angelo J. Rossi, Mayor of San Francisco, San Francisco, California.

Dear Mayor Rossi: Summing up the high lights of yesterday's hearing in your chambers, as the official representative of the 128 men of the lieutenant eligible list, I submit the following:

The individuals or groups asking you by letter or voice to exercise your veto power are self appointed custodians of public rights actuated in most instances by selfish interests and their decision based upon erroneous statements. The matter that they are asking you to veto—the protection of the taxpayer from a raid of \$36,100 is not before you.

On the other hand, you have a group of sincere earnest men, one of the best boards San Francisco has ever had, fitted for their work by years of experience, elected by and answerable to the people. The official custodians of public affairs, their decision based upon knowledge of the subject and with all the facts before them, by a decided majority vote, ask you to sustain their official action.

As to the eligible list of lieutenants, great stress has been placed upon the first ten, that is solely because many legal vacancies now exist and these men should have been lieutenants for some months past, but as to interest in this matter number forty is far more concerned than number one when he sees the list standing still, in fact, going backwards, he realizes that his rightful and natural hopes of appointment are blasted. The first ten or fifteen know that in the course of events they will be placed, yet if the plan to take all officers out of chemicals according to Mr. Kennedy's quoting Chief Brennan, in a statement to me in the presence of Commissioner Ehrman, the entire list would practically be killed, with the result that the department would be shaken to its very foundation.

It is hardly necessary for me to call your attention to the fact that sections 69, 72 of the new Charter, quoted by Mr. Nanery, have no bearing on this question. This is a budget matter. The reduction in number of lieutenants appeared on the calendar. In opposition to such a move we presented our case on the first day set for public hearing. Matter of increase in number of captains was not on the calendar as a budget item, was not mentioned at public hearing and yet accorded by Mr. Nanery a legal status over the lieutenants. It cannot be done.

Chief Brennan told us Chief Murphy was responsible for the appointing of 38 lieutenants. Did he tell us he was chairman of the advisory committee from the David Scannell Club that urged such action, and that at least one of the present commissioners signed it? If it was good then it is good now. Mr. Nanery compared our number of officers with other cities. Let me remind you that it was while we had 138 lieutenants that we were first in rank of efficiency.

Chief Brennan asked Supervisor McSheehy what he would do if he had 14 foremen and only needed one? Let's give Supervisor McSheehy credit for intelligence. He would be a fool indeed to advertise for and engage 14 foremen and then suddenly pull his hair, grow epileptic and cry "I need only one." Such arguments are ridiculous. Remember the pawns in this play are Americans, not dummies.

Mrs. Kemp told me after the meeting that Chief Brennan's belligerent attitude prevented her from asking if, at any time within the last six months portions of San Francisco had been endangered because of lack of a sufficient number of officers.

He would have been compelled to have answered yes on more than one occasion.

Recently the vast amount of investment in the entire St. Francis Wood section was left to the protection of a chemical with two men,

neither one an officer. This section is classed as the greatest fire hazard in our city. A fire well started in the trees, a strong wind (quoting Chief Murphy), and nothing could stop it.

Such a fire would bring about losses and damages amounting to a sum far greater than the \$2,700 named in the Board resolution before you.

Yours for a bigger and better San Francisco Fire Department.

EDNA LAUREL CALHAN.

Ordered *filed*.

Veto Sustained.

Whereupon, the roll was called and the Mayor's veto *sustained* by the following vote:

Noes—Supervisors Breyer, Canepa, Colman, Garrity, Hayden, McGovern, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton, Suhr—14.

Opposing the Grant of a Permit to Private Interests by War Department to Construct Combination Toll Bridge and Tube Between Point Fleming, City of Albany, and Bluff Point, Marin County Shore.

Also, Resolution No. 38416 (New Series), as follows:

Whereas, private interests have made application to the War Department for a permit to construct a combination toll bridge and tube

between Point Fleming in the City of Albany and Bluff Point on the Marin County shore, just northeast of Tiburon, and

Whereas, by law the State of California has declared against the construction of additional privately owned toll bridges and has provided that any future toll structures shall be owned and operated by the public, and

Whereas, this action was taken to prevent private promoters from financing ill-conceived and unsound projects at the expense of the public and in recognition of the fact that a bridge is an integral part of the highway system, and

Whereas, construction of this combination bridge and tube would divert a great amount of motor traffic destined both to the north and south over the Redwood Highway from the Golden Gate bridge to the great detriment of this publicly owned enterprise and to the taxpayers of the City and County of San Francisco, and

Whereas, the proposed eastern bridge head at Point Fleming is less than four miles from the eastern terminus of the San Francisco-Oakland bridge; in a direct line along the shore, which is now prohibited by State law, which provides not less than five miles, and

Whereas, the granting of this permit may have a detrimental effect upon the sale of the revenue bonds for construction of the San Francisco-Oakland bay bridge and create one more toll bridge enterprise for the public to acquire in addition to the large number now in existence under the State's policy of freeing toll bridges and roads to the public as rapidly as finances permit, and

Whereas, the Board of Supervisors of the City and County of San Francisco believe that the Government should adopt a policy of not permitting bridges to encumber navigation unless absolutely essential to the economic development of the Bay area and that the entire area should be considered in granting such a permit in order that the number of bridges be held to a minimum, now, therefore, be it

Resolved, By the Board of Supervisors of the City and County of San Francisco that it officially oppose the granting of this permit before the engineers of the War Department at a hearing to be held July 29, 1931, and that a copy of this resolution be forwarded to the War Department, the State Bridge Authority, Directors of the Golden Gate Bridge District, and other interested groups.

Supervisor Gallagher presented:

Whereas, on January 15, 1931, the San Francisco Traffic Survey Committee, in a report dealing with traffic conditions on The Embarcadero, and looking toward the relief of the congested conditions thereon, reported to the Honorable Board of State Harbor Commissioners, as suggestions to relieve the situation, that certain streets, if repaved, resurfaced, or widened, would greatly improve conditions; and

Whereas, they report that due to congestion and stoppage during the eleven business hours of the day the Ferry loop is closed to street cars four hours and forty-eight minutes and vehicular traffic is stopped on an average of six hours and thirteen minutes out of every day, which, when translated into terms of dollars by multiplying the value of the truck and driver per hour, the loss becomes apparent. Checks made by ~~the~~ committee have indicated that over 84,391 motor trucks

and 96,961 passenger cars cross The Embarcadero at various hours of the business day; and

Whereas, said committee appealed to this Board of Supervisors to assist in relieving this congestion by repaving or resurfacing or widening the following streets: Front street, from Broadway to Filbert; Drumm street, from Pacific to Broadway; Folsom street, from The Embarcadero to Third; Howard street, from The Embarcadero to Third; Mission street, from The Embarcadero to Third; Steuart street, from The Embarcadero to Mission; Spear street, from The Embarcadero to Mission; Townsend street, from The Embarcadero to Third; Brannan street, from First to Division; Berry street, from Third to Fourth.

Roadways should be widened by setting back curbs on the following streets: Mission street, from The Embarcadero to Third; Howard street, from The Embarcadero to Third; Folsom street, from The Embarcadero to Third; Harrison street, from The Embarcadero to Third; Berry street, from The Embarcadero to Fourth; Bay street, from The Embarcadero to Columbus avenue; Jefferson street, from The Embarcadero to Larkin; Fremont street, from The Embarcadero to Market; Front street between Market and The Embarcadero; Main street, from The Embarcadero to Market; Drumm street between Market and The Embarcadero.

Grades should be reduced on the following streets: Harrison street, from First to Second; Bryant street, from First to Second; Fremont street between Harrison and Bryant.

Therefore, be it

Resolved, That the City Engineer is requested to estimate the cost of these improvements, to prescribe their order of importance, and to report to this Board at the earliest possible date; and be it

Further Resolved, That upon the submission of said report to the Streets Committee of the Board of Supervisors, said committee is requested to inaugurate a policy of assisting in relieving the traffic on The Embarcadero by resurfacing, widening or reconstructing these streets to the number of at least five each fiscal year.

transporting passengers for hire and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing, *but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended, or Section 1 of Ordinance No. 3212 (New Series), as amended*, of the same number of *motor vehicles for hire*, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of *a motor vehicle for hire business, in the same class, type and character of service*, and thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (New Series), as amended, Ordinance No. 5118 (New Series), as amended, Ordinance No. 3212 (New Series), as amended, and Ordinance No. 6979 (New Series), as amended.

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of August, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and state license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

Section 3. Any applicant for a license or permit to operate a *motor vehicle for hire* shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to *operate a motor vehicle for hire or motor vehicle for hire business*, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three suc-

On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of *motor vehicles for hire* shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle *for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 9. This ordinance shall take effect immediately.

Section 2. *The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:*

(1) *That applicant is financially responsible.*

(2) *That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.*

(3) *That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.*

(4) *That applicant has complied with the provisions of all municipal ordinances, and/or State or Federal laws applicable to the proposed operation.*

Section 3. Any applicant for a license or permit to operate a motor vehicle for hire shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to operate a motor vehicle for hire or motor vehicle for hire business, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of motor

vehicles for hire shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant* a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle *for hire* unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel such person, firm or corporation to

(b) File with said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damage.

(d) *File with said Board a sworn statement setting forth the permits and/or certificates held, or proposed to be acquired, by applicant from other governmental bodies relating to the proposed operation and annually thereafter, and not later than the first week in July of each year, and as often as said Board shall direct, file a sworn statement setting forth the permits and/or certificates then held by applicant from other governmental bodies relating to said operation, together with a sworn statement showing full compliance with all municipal ordinances and/or State or Federal laws applicable to said operation. Failure to file such statement, or statements shall constitute a violation of this ordinance and shall be deemed cause for cancellation of any and all permits to so operate.*

Said person, firm or corporation shall, not later than the first week in July of each year, and as often as said Board of Supervisors shall direct, file in writing upon a form prescribed by said Board of Supervisors financial statement or statements of such insurance or indemnity or bond or security held or secured by said person, firm or corporation and pay to said Clerk the sum of \$5 to cover the costs and expense of examining said statements.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Proposed Amendment to the Public Convenience and Necessity Taxicab Ordinance.

Without recommendation of Police Committee.

Supervisor Jefferson E. Peyser moved the following amendment:

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle for hire unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors and thereafter keep in full force and effect a policy of insurance or bond in such form as the Board may deem proper, and executed by a surety or sureties approved by said Board, insuring the public against any loss or damage that may result to any person or property from the operation of such vehicle or vehicles; provided, the minimum amount of recovery in such policy or insurance or bond specified shall not be less than the following sums, i. e.:

For the injury to any one person or the death of any one person in any one accident, \$5,000.

For the injury to two or more persons or the death of two or more persons in any one accident, \$10,000.

For the injury or destruction of property in any one accident, \$500. Provided, however, that for vehicles having a seating capacity of

more than ten persons the limit of liability for death or injury in any one accident shall be \$20,000 instead of \$10,000, as hereinabove specified.

Provided, however, that such person, firm or corporation may, in lieu of the aforesaid policy of liability insurance, file with said Board a bond in such form as the Board may deem proper, executed by a responsible and solvent corporation authorized to conduct a bonding insurance business under the laws of the State of California, which bond shall be conditioned for the payment of all final judgments which may be rendered against any such person, firm or corporation for damages on account of injuries to property or person, including both passengers and the public, occasioned by the operation of any such motor vehicle described in Section 1 hereof, and which bond shall be in an amount graduated according to the number of motor vehicles owned or offered for hire, according to the following scale:

Where such person, firm or corporation owns or offers for hire only one such motor vehicle, said bond shall be in the sum of \$10,500.

Where such person, firm or corporation owns or offers for hire more than one but less than six such motor vehicles, said bond shall be in the sum of \$25,000.

Where such person, firm or corporation owns or offers for hire more than five but less than twenty-one such motor vehicles, said bond shall be in the sum of \$50,000.

Where such person, firm or corporation owns or offers for hire more than twenty but less than sixty-one such motor vehicles, said bond shall be in the sum of \$75,000.

Where such person, firm or corporation owns or offers for hire more than sixty but less than one hundred and one such vehicles, said bond shall be in the sum of \$100,000.

Where such person, firm or corporation owns or offers for hire more than one hundred such motor vehicles, said bond shall be in the sum of \$125,000.

Provided, however, that for vehicles described in Section 1 hereof, having a seating capacity of more than ten persons, said bond shall be in a sum double that prescribed in the above graduated scale.

In the event of the return unsatisfied of any execution issued on any final judgment from which an appeal may be taken without bond, rendered against any such person, firm or corporation in any suit for damages on account of injury to person or property occasioned by the operation of any such motor vehicle, such person, firm or corporation shall, within ten (10) days after the return of such execution unsatisfied (provided said judgment is still unpaid), increase the amount of his bond by the amount of such judgment, and failing to do so shall forthwith cease the operation of motor vehicles in San Francisco until such additional bond is deposited or said judgment is paid.

All policies or bonds shall contain a provision for a continuing liability thereunder up to the full amount of the penalty thereof, notwithstanding any recovery thereon.

(b) Provided, that any association or organization of owners of vehicles for hire, as specified in this ordinance, which shows a cash reserve after the date of the passage of this ordinance of the sum of \$10,000, and thereafter shows a monthly increase in said reserve of \$800 per month for a period of eighteen months immediately following the adoption of this ordinance, so that at all times after the expiration of the said eighteen months there shall be a cash reserve in said organization in the sum of \$25,000, shall be deemed a compliance with the provisions of this ordinance. Said reserve as herein provided for shall be used for the purpose of satisfying and liquidating claims for damages to persons and property arising out of the negligence of the operators of said association, and shall be subject to execution in satisfaction of any judgment rendered against any operator or member of said organization or association.

(c) *File with said Board a sworn statement setting forth the per-*

mits and/or certificates held, or proposal to be acquired, by applicant from other governmental bodies relating to the proposed operation and annually thereafter, and not later than the first week in July of each year, and as often as said Board shall direct, file a sworn statement setting forth the permits and/or certificates then held by applicant from other governmental bodies relating to said operation, together with a sworn statement showing full compliance with all municipal ordinances and/or State or Federal laws applicable to said operation. Failure to file such statement, or statements shall constitute a violation of this ordinance and shall be deemed cause for cancellation of any and all permits to so operate.

It shall be unlawful for any owner to operate or cause to be operated any vehicle without having a policy or bond as described in this section in full force and effect at all times during the operation of such vehicle.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing [*but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended,*] or section 1 of Ordinance No. 3212 (New Series), as amended, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of a motor vehicle for hire business, in the same class, type and character of service, as thus defined, and was, at said time complying

(b) *For the licensing for the operation of motor vehicles engaged in the business of, or used for, transporting passengers for hire, when such motor vehicles are operated under and by reason of certificates of public convenience and necessity issued by the Railroad Commission of the State of California, provided, however, that this clause shall be construed to create an exception only to the extent, character and type of operation expressly prescribed by the certificate or certificates issued by said Railroad Commission, and shall be limited by and be entirely within the scope of said certificate or certificates issued by said Railroad Commission.*

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of September, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and State license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.*

All holders of existing licenses or permits for the operation of motor vehicles for hire shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the appli-

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle for hire unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors and thereafter keep in full force and effect a policy of insurance or bond in such form as the Board may deem proper, and executed by a surety or sureties approved by said Board, insuring the public against any loss or damage that may result to any person or property from the operation of such vehicle or vehicles; provided, the minimum amount of recovery in such policy or insurance or bond specified shall not be less than the following sums, i. e.:

For the injury or destruction of property in any one accident, \$500.

Provided, however, that for vehicles having a seating capacity of more than ten persons the limit of liability for death or injury in any one accident shall be \$20,000 instead of \$10,000, as hereinabove specified.

Provided, however, that such person, firm or corporation may, in lieu of the aforesaid policy of liability insurance, file with said Board a bond in such form as the Board may deem proper, executed by a responsible and solvent corporation authorized to conduct a bonding insurance business under the laws of the State of California, which bond shall be conditioned for the payment of all final judgments which may be rendered against any such person, firm or corporation for damages on account of injuries to property or person, including both passengers and the public, occasioned by the operation of any such motor vehicle described in Section 1 hereof, and which bond shall be in an amount graduated according to the number of motor vehicles owned or offered for hire, according to the following scale:

Provided, however, that for vehicles described in Section 1 hereof, having a seating capacity of more than ten persons, said bond shall be in a sum double that prescribed in the above graduated scale.

In the event of the return unsatisfied of any execution issued on any final judgment from which an appeal may be taken without bond, rendered against any such person, firm or corporation in any suit for damages on account of injury to person or property occasioned by the operation of any such motor vehicle, such person, firm or corporation shall, within ten (10) days after the return of such execution unsatisfied (provided said judgment is still unpaid), increase the amount of his bond by the amount of such judgment, and failing to do so shall forthwith cease the operation of motor vehicles in San Francisco until such additional bond is deposited or said judgment is paid.

All policies or bonds shall contain a provision for a continuing liability thereunder up to the full amount of the penalty thereof, notwithstanding any recovery thereon.

(b) Provided, that any association or organization of owners of vehicles for hire, as specified in this ordinance, which shows a cash reserve after the date of the passage of this ordinance of the sum of \$10,000, and thereafter shows a monthly increase in said reserve of \$800 per month for a period of eighteen months immediately following the adoption of this ordinance, so that at all times after the expiration of the said eighteen months there shall be a cash reserve in said organization in the sum of \$25,000, shall be deemed a compliance with the provisions of this ordinance. Board of Public Works to Prepare Plans and Specifications and Estimate of Cost of Pipe Line as an Integral Part of Hetch Hetchy Project, Corral Hollow Route.

On recommendation of Public Utilities and Finance Committees.

Bill No. 9456, Ordinance No. 9044 (New Series), as follows:

Directing the Board of Public Works to prepare plans and specifications for, and an estimate of the cost of, a pipe line to be an integral part of the Hetch Hetchy Water Project, and to commence at the bottom of the Thomas shaft, in the Coast Division of the Hetch Hetchy aqueduct tunnel, and to continue over and along the route submitted by the City Engineer through the Board of Public Works, pursuant to Ordinance No. 9907 (New Series), and known as the Corral Hollow route, and to connect with the west portal of said aqueduct tunnel at Alameda Creek, together with plans and specifications for and an estimate of the cost of the necessary pumping equipment to operate said pipe line, together with descriptions of the necessary rights of way for said pipe line and said pumping equipment, and an estimate of the cost thereof, and further directing said Board of Public Works, upon the completion of said plans, specifications and estimates, to advertise for bids and enter into a contract or contracts for the acquisition of the necessary materials and for the construction of said pipe line and for the installation of said pumping equipment; and to acquire the necessary rights of way for said pipe line and pumping equipment, and making the cost of the same a charge against the 1928 Hetch Hetchy Bond Fund.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works of the City and County of San Francisco is hereby directed to prepare plans and specifications for, and an estimate of the cost of, a pipe line to be an integral part of the Hetch Hetchy Water Project, and to commence at the bottom of the Thomas shaft, in the Coast Division of the Hetch Hetchy aqueduct tunnel, and to continue over and along the proposed route submitted by the City Engineer through the Board of Public Works, pursuant to Ordinance No. 9907 (New Series), which said route is designated and known as the "Corral Hollow Route," and to connect with the continuation of said aqueduct tunnel at the westerly portal thereof, at Alameda Creek; together with plans and specifications for

and an estimate of the cost of the necessary pumping equipment to operate said pipe line to the capacity hereinafter set forth.

Section 2. That said pipe line shall be of sufficient size and capacity to carry and deliver forty-five million gallons of water daily.

Section 3. Said Board of Public Works is further directed, upon the completion of said plans, specifications and estimates, to advertise and accept bids for and to enter into a contract or contracts for the acquisition and furnishing of the necessary materials for said pipe line and pumping equipment, and for the construction and installation of the same.

Section 4. Said Board of Public Works is further directed to prepare the descriptions for the necessary lands, easements and rights of way for said pipe line and said pumping equipment, and to acquire the lands, easements and rights of way necessary or convenient for the construction, operation and maintenance of said pipe line and pumping equipment.

Section 5. That all of said contracts made for the construction of said pipe line and pumping equipment shall be conditioned in the manner provided by law, Charter and ordinance, as to the hours of labor, compensation, and residential qualifications of employees performing labor or rendering service under said contract or contracts.

Section 6. That by the enactment of this ordinance it is hereby found as a fact that the construction of the aforesaid pipe line and pumping equipment and the acquisition of the necessary lands, easements and rights of way therefor, are necessary for the purpose of completing the Hetch Hetchy project for the conveyance of water from the Lake Eleanor Tuolumne System to the City and County of San Francisco for domestic and municipal purposes, and that the cost of the construction of said pipe line and pumping equipment, and the acquisition of the necessary lands, easements and rights of way therefor, shall be a charge against the 1928 Hetch Hetchy Bond Fund.

Section 7. This ordinance shall be effective immediately upon its passage.

Ayes—Supervisors Breyer, Canepa, Colman, Gallagher, Havenner, Hayden, McGovern, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Suhr—14.

No—Supervisor McSheehy—1.

Absent—Supervisors Andriano, Garrity, Stanton—3.

Explanation of Vote.

SUPERVISOR MCSHEEHY: I am voting against this measure not because I am opposed to the construction of a pipe line at this time, but because I favor a larger pipe line, of greater capacity than the one proposed, and over a different and superior route. I am voting *no* in reference to the report recommended by the Joint Committee of Utilities and Finance for the 45,000,000-gallon Corral Hollow route, over 1600-foot elevation, for the following reasons:

1. It is a travesty on the engineering profession to consider pumping 45,000,000 gallons of water per day to a height of 1600 feet with a net pumping lift of 1325 feet, against a pumping plan of 740 feet at Altamont Pass with a net pumping lift of 440 feet.

2. It is a positive injustice to the taxpayers of San Francisco to create and authorize an expenditure of 1,309,090 dollars in excess for the construction of a pipe line as outlined in the report recommended.

3. A pumping cost of \$421,000 a year will be required for the recommended Corral Hollow route, and this huge sum will have for its purpose but one object, and that is to create an issue for the bonding of the City for a sum of perhaps not less than \$10,000,000.

4. Every estimate in reference to the moneys required for the finishing of this project, and the time specified, given by the Engineer, have proven to be erroneous, and his last statement of \$4,000,000 for the completion of this work, on examination of his own figures, can be proven to cost closer to \$10,000,000.

5. The Corral Hollow route, for 45,000,000 gallons daily, is simply a subterfuge to create a pumping charge that has but one purpose, to force the people to vote for the bonding of our City for an additional \$10,000,000 to relieve them from this unfair and unnecessary pumping cost.

6. The Altamont Pass route, over a 740-foot elevation with a 440-foot net pumping lift, requires a pumping charge of only \$194,000 dollars per year for 60,000,000 gallons of water daily, against \$421,000 for the Corral Hollow route for 45,000,000 gallons of water daily.

7. The 60,000,000-gallon Altamont Pass route, at a 740-foot elevation, gives us a perfectly complete Hetch Hetchy water system, constructed as it should have been done in the first place as far as the Coast Range section is concerned, and would require no bond issue whatever at the present time or at any future time, as far as we can see, within the present generation, at least.

Explanation of Vote.

SUPERVISOR HAVENNER: I was one of those first advocating the construction of an emergency pipe line at this time in order to safeguard San Francisco from a water shortage in the immediate future. I am glad the decision has been made by the Board of Supervisors to bring in this emergency supply. It would be fatal, I think, to not bring it in. I very strongly disagree, however, with the plan that has been adopted to bring it in, and I cannot understand the logic of the manager of the Water Department in getting up here and smilingly telling us he favors this plan. He is looking at it, apparently, not as manager of the Water Department, but as a friend of the Engineer. Nevertheless, while placed in a position where I strongly disapprove of the method adopted, and while I believe that we are going to be a laughing-stock in San Francisco among engineers and among engineering observers everywhere, I cannot vote, of course, not to bring this emergency supply of water in, and inasmuch as the majority of my colleagues have decided to take the other route, I am going to hold my nose and vote for it.

The following matter, heretofore passed for printing, was taken up and *finally passed* by the following vote:

Public Necessity and Convenience Ordinance in re Motor Vehicles for Hire, and Repealing Ordinances Nos. 8637 and 8750 (New Series).

On recommendation of Police Committee.

Bill No. 9458, Ordinance No. 9045 (New Series), as follows:

Providing for the issuance of certificate of public convenience and necessity in connection with the issuance of licenses and permits for the operation of motor vehicles engaged in the business of or used for transporting passengers for hire, and providing a penalty for any violation thereof, and repealing Ordinance No. 8637 (New Series), and Ordinance No. 8750 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license or permit shall be issued for the operation of *any motor vehicle engaged in the business of or used for transporting passengers for hire*, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed *motor vehicle for hire* service for which application for a license or permit is made.

Provided, that such declaration of public convenience and necessity shall not be necessary—

(a) For the licensing [*but only in the same class, type and character of any one of the services defined in Section 1 of Ordinance No. 6979 (New Series), as amended, or Section 1 of Ordinance No. 5118 (New Series), as amended,*] or section 1 of Ordinance No. 3212 (*New Series*), as amended, of the same number of motor vehicles for hire, licensed for operation and operated by the applicant in said class, type and character of service, under the same name and colors, on the day upon which this ordinance shall take effect, or the renewal of the same license annually thereafter; provided, however, that this exception shall apply only in the event that the applicant was engaged at the time this ordinance becomes effective in the actual operation of a motor vehicle for hire business, in the same class, type and character of service, as thus defined, and was, at said time complying with all of the provisions of Ordinance No. 5132 (*New Series*), as amended, Ordinance No. 5118 (*New Series*), as amended, Ordinance No. 3212 (*New Series*), as amended, and Ordinance No. 6979 (*New Series*), as amended and all provisions of State statutes applicable.

(b) For the licensing for the operation of motor vehicles engaged in the business of, or used for, transporting passengers for hire, when such motor vehicles are operated under and by reason of certificates of public convenience and necessity issued by the Railroad Commission of the State of California, provided, however, that this clause shall be construed to create an exception only to the extent, character and type of operation expressly prescribed by the certificate or certificates issued by said Railroad Commission, and shall be limited by and be entirely within the scope of said certificate or certificates issued by said Railroad Commission.

Every person, firm or corporation holding a license authorizing the operation of a motor vehicle for hire shall, on or before the 1st day of September, 1931, file with the Clerk of the Board of Supervisors an affidavit setting forth the number, make, type and State license number of motor vehicles for hire which it is then licensed to operate, and shall fully describe the same, and shall specify the type, class and character of service, as defined by the ordinances hereinabove referred to, applicable to each of said motor vehicles.

Section 2. The Board of Supervisors, in determining whether or not public convenience and necessity exists, may take into consideration all facts as it may deem pertinent and proper, which facts shall or must include specific finding that the following conditions exist:

(1) That applicant is financially responsible.

(2) That the persons, firms or corporations holding permits or licenses for the operation of motor vehicles for hire are under efficient management, earning a fair and reasonable return on their capital devoted to such service.

(3) That persons, firms or corporations holding permits or licenses for the operation of vehicles for which application is being made are under normal conditions inadequately serving the public.

(4) That applicant has complied with the provisions of all municipal ordinances and/or State or Federal laws applicable to the proposed operation.

Section 3. Any applicant for a license or permit to operate a *motor vehicle for hire* shall make proper application to this Board of Supervisors for its declaration of public convenience and necessity, on

blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in the official newspaper of the City and County of San Francisco, which said notice shall set forth the fact that said application has been filed for a license or permit to *operate a motor vehicle for hire or motor vehicle for hire business*, the name of the applicant, kind of equipment, and number of vehicles proposed to be operated. Said notice shall be published for three successive days. On filing the application the applicant shall pay to the Clerk the sum of \$15 for one vehicle and \$1 for each additional vehicle for which a certificate of public convenience and necessity is desired, to cover the cost and expense of advertising, the notice of application and the resolution granting the permit or license.

All holders of existing licenses or permits for the operation of *motor vehicles for hire* shall thereupon be entitled to file any complaints or protests that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all such hearings the burden of proof shall be upon the applicant to establish by clear and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt, that public convenience and necessity require such operation of the vehicle or vehicles for which said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that public convenience and necessity justify and require the operation of the *motor vehicle or motor vehicles* for which licenses or permits are requested, it shall notify the applicant of its finding, and within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner of the vehicle or vehicles for which license or permit is requested, and that such vehicle meets with the requirements as prescribed by all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of the City and County of San Francisco, shall thereupon issue to said applicant a certificate of public convenience and necessity and said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, *who shall thereupon issue to said applicant a license or permit, or licenses or permits, for the operation of such vehicle or vehicles.*

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license or permit is requested, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed *motor vehicle for hire* business during each day of the license year to the extent reasonably necessary to meet the public demand for such *motor vehicle for hire* service. Upon abandonment of such business for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall, after five (5) days' written notice to the said owner or operator, direct the Police Commission of the City and County of San Francisco to revoke said owner's or operator's licenses or permits, and said licenses or permits shall forthwith be revoked. All such permits or licenses granted hereunder shall be transferable only upon the consent of the Board of Supervisors after written application shall have first been made to said Board of Supervisors and upon payment of the fee required of new applicants. Any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause,

and said Police Commission shall, upon notification of said action by said Board of Supervisors, revoke any and all such permits or licenses.

Section 6. Unless otherwise provided by ordinance, no person, firm or corporation, after the date of the passage of this ordinance, shall operate any motor vehicle for hire unless and until such person, firm or corporation shall—

(a) File with the Board of Supervisors and thereafter keep in full force and effect a policy of insurance or bond in such form as the Board may deem proper, and executed by a surety or sureties approved by said Board, insuring the public against any loss or damage that may result to any person or property from the operation of such vehicle or vehicles; provided, the minimum amount of recovery in such policy or insurance or bond specified shall not be less than the following sums, i. e.:

For the injury to any one person or the death of any one person in any one accident, \$5,000.

For the injury to two or more persons or the death of two or more persons in any one accident, \$10,000.

For the injury or destruction of property in any one accident, \$500.

Provided, however, that for vehicles having a seating capacity of more than ten persons the limit of liability for death or injury in any one accident shall be \$20,000 instead of \$10,000, as hereinabove specified.

Provided, however, that such person, firm or corporation may, in lieu of the aforesaid policy of liability insurance, file with said Board a bond in such form as the Board may deem proper, executed by a responsible and solvent corporation authorized to conduct a bonding insurance business under the laws of the State of California, which bond shall be conditioned for the payment of all final judgments which may be rendered against any such person, firm or corporation for damages on account of injuries to property or person, including both passengers and the public, occasioned by the operation of any such motor vehicle described in Section 1 hereof, and which bond shall be in an amount graduated according to the number of motor vehicles owned or offered for hire, according to the following scale:

Where such persons, firm or corporation owns or offers for hire only one such motor vehicle, said bond shall be in the sum of \$10,500.

Where such person, firm or corporation owns or offers for hire more than one but less than six such motor vehicles, said bond shall be in the sum of \$25,000.

Where such person, firm or corporation owns or offers for hire more than five but less than twenty-one such motor vehicles, said bond shall be in the sum of \$50,000.

Where such person, firm or corporation owns or offers for hire more than twenty but less than sixty-one such motor vehicles, said bond shall be in the sum of \$75,000.

Where such person, firm or corporation owns or offers for hire more than sixty but less than one hundred and one such vehicles, said bond shall be in the sum of \$100,000.

Where such person, firm or corporation owns or offers for hire more than one hundred such motor vehicles, said bond shall be in the sum of \$125,000.

Provided, however, that for vehicles described in Section 1 hereof, having a seating capacity of more than ten persons, said bond shall be in a sum double that prescribed in the above graduated scale.

In the event of the return unsatisfied of any execution issued on any final judgment from which an appeal may be taken without bond, rendered against any such person, firm or corporation in any suit for damages on account of injury to person or property occasioned by the operation of any such motor vehicle, such person, firm or corporation shall, within ten (10) days after the return of such execution unsatisfied (provided said judgment is still unpaid), increase the amount of his bond by the amount of such judgment, and failing to do so shall

forthwith cease the operation of motor vehicles in San Francisco until such additional bond is deposited or said judgment is paid.

All policies or bonds shall contain a provision for a continuing liability thereunder up to the full amount of the penalty thereof, notwithstanding any recovery thereon.

(b) Provided, that any association or organization of owners of vehicles for hire, as specified in this ordinance, which shows a cash reserve after the date of the passage of this ordinance of the sum of \$10,000, and thereafter shows a monthly increase in said reserve of \$800 per month for a period of eighteen months immediately following the adoption of this ordinance, so that at all times after the expiration of the said eighteen months there shall be a cash reserve in said organization in the sum of \$25,000, shall be deemed a compliance with the provisions of this ordinance. Said reserve as herein provided for shall be used for the purpose of satisfying and liquidating claims for damages to persons and property arising out of the negligence of the operators of said association, and shall be subject to execution in satisfaction of any judgment rendered against any operator or member of said organization or association.

(c) *File with said Board a sworn statement setting forth the permits and/or certificates held, or proposed to be acquired, by applicant from other governmental bodies relating to the proposed operation and annually thereafter, and not later than the first week in July of each year, and as often as said Board shall direct, file a sworn statement setting forth the permits and/or certificates then held by applicant from other governmental bodies relating to said operation, together with a sworn statement showing full compliance with all municipal ordinances and/or State or Federal laws applicable to said operation. Failure to file such statement, or statements shall constitute a violation of this ordinance and shall be deemed cause for cancellation of any and all permits to so operate.*

It shall be unlawful for any owner to operate or cause to be operated any vehicle without having a policy or bond as described in this section in full force and effect at all times during the operation of such vehicle.

Section 7. That any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than \$500 or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 8. Ordinance No. 8637 (New Series), approved December 20, 1929, and Ordinance No. 8750 (New Series), approved May 26, 1930, are hereby repealed.

Section 9. This ordinance shall take effect immediately.

Section 1. Subdivisions (c), (d) and (e) of Section 1, and Subdivision (e) of Section 3 of Ordinance No. 8564 (New Series), the title of which is recited above, are hereby amended to read as follows:

Section 1. Whenever used in this ordinance, the following terms and words are defined as herein specified and shall be deemed and construed to have the meaning ascribed to them in this section:

(a) An "automobile" shall mean any self-propelling vehicle.

(b) "Gasoline" shall mean and include any product of petroleum flashing below the temperature of 110 degrees Fahrenheit. The Fire Marshal of the City and County of San Francisco shall determine such flashing point.

(c) A "commercial garage" is a building wherein four or more automobiles designed, used or maintained for the transportation of persons or property and operated by the owner or owners thereof, are kept, stored, repaired and/or serviced, and where no charge is made for the storage, keeping, repairing and servicing of same.

(d) A "public garage" shall mean any building, structure or part thereof, wherein four or more automobiles are kept or stored by the public, or wherein storage facilities for four or more automobiles are advertised by any sign or device affixed to or painted upon said building or structure or any part thereof, or otherwise, or where a charge is made for the storage and keeping of four or more automobiles.

A public garage business may embody the storage, cleaning, repairing and servicing of automobiles, and their equipment, and the storing and selling of gasoline and petroleum products, automobile supplies and accessories.

In apartment house buildings, and hotel buildings, the above definitions (c) and (d) shall not operate against providing and making a charge for automobile storage space as follows: In apartment house buildings, not exceeding three hundred (300) square feet for each apartment within the building; in hotel buildings, not exceeding one hundred and fifty (150) square feet for each room within the building, provided that the spaces in which automobiles are stored conform with the State Housing Act of 1923 and amendments thereto, and also provided that all enclosures or exterior walls from the foundations to the surface of the floor constituting the ceiling of the garage shall be of masonry as required for class "C" buildings. Said definitions shall not operate against providing and maintaining in apartment house buildings and hotel buildings a greater space than herein defined, provided that when said limitations are exceeded the construction shall be class "A" or "B" as defined in the Building Laws of the City and County of San Francisco, and provided further, that any apartment house building, or hotel building, wherein four or more automobiles are kept or stored by any person or persons not residing in the building shall be a public garage as herein defined.

In flats or dwellings, the above definitions (c) and (d) shall not operate against providing and maintaining storage space for four or more automobiles, provided, that where the space in which automobiles are stored exceeds the area of four hundred fifty (450) square feet, the construction shall conform with the State Housing Act of 1923 and amendments thereto, and provided further, that where such space is maintained in excess of four hundred fifty (450) square feet, no

portion of same shall be rented or hired out to any person or persons not residing in the building.

(e) Any other building, structure or part thereof, wherein one or more automobiles are kept or stored, except those establishments which are specifically regulated by any other ordinances, shall be deemed to be a "private garage."

Construction.

Section 3. (a) Every building, structure or part thereof hereafter erected, altered or changed so as to be occupied, conducted, maintained or operated as a public or commercial garage shall be of class "A," "B" or "C" construction (as defined in the Building Laws of the City and County of San Francisco), provided said building or structure is not more than one (1) story in height, and if more than one story in height, it shall be of either class "A" or "B" construction. The roof of such class "C" building or structure shall be of metal supported on steel or timber trusses. The floors of all garages shall be concrete construction or steel frame with concrete construction.

(b) A public or commercial garage shall not be maintained in any building that is occupied in any part for any other purpose than that necessary for the operation of a public or commercial garage, unless said building is of class "A" or "B" construction throughout. The portion occupied as a public or commercial garage shall have no entrance, exit or other opening of any kind whatsoever into other portions of the building not so occupied, unless said opening or openings are located as required by the Board of Public Works. Such openings shall be protected with a full underwriter's automatic fire door on inclined tracks with fusible links, or an approved underwriter's automatic rolling steel shutter, fusible links on both sides of the opening in the wall. Any screen door required in the opening shall be equal to a full kalamein or hollow metal construction. Walls separating such portion occupied as a public or commercial garage and the remainder of the building shall be of brick, stone or reinforced concrete. The floors which constitute the ceilings of such garage shall be of reinforced concrete slabs, not less than four (4) inches thick, supported by concrete fireproofed carrying units of the frame. These slabs shall be not less than six (6) inches thick, where they constitute the floor of the public assembly room and the ceiling of the garage. All such slabs shall be reinforced so as to develop their full strength to resist upward pressures, and the ceilings of all garages under places of public assembly shall be equipped with an automatic sprinkler system as provided in all ordinances of the City and County of San Francisco in reference thereto.

(c) Every space in a building hereafter erected in which automobiles or other motor vehicles are placed or stored shall be provided with ventilation as follows:

When the total space on any floor to be used for such purposes is 4000 square feet or less, such space shall be provided with ventilation outlets in the walls thereof.

The total areas of such ventilating outlets shall be as follows:

For a space of 1000 square feet or less, 200 square inches. For each additional space of 200 square feet over 1000 square feet this area shall be increased 50 square inches until the total area becomes 525 square inches, which shall be the maximum required for a space of not more than 4000 square feet.

The top of ventilating outlets shall be not more than 18 inches above the floor. Such outlets shall be protected with galvanized wire rods not less than $\frac{3}{8}$ -inch in diameter so as to provide opening of $\frac{1}{2}$ -inch mesh.

Protections of ornamental design may be used provided they are galvanized and have a strength equal to that of the rods. All protections shall be firmly anchored in or secured to their supports. All ventilating outlets shall lead directly to a free and unobstructed circulation of air; but shall not lead into inner courts.

All natural ventilating outlets shall be arranged so that there will be at least one outlet in each of two opposite walls of said garage and not less than one-half of the total area of outlets required shall be provided in each of such walls. The free circulation of air between ventilating outlets shall be maintained.

When such space has a floor area of over 4000 square feet a mechanical exhaust ventilation system shall be provided. This system shall consist of power driven exhaust fan or fans of the positive centrifugal type and shall have sufficient capacity to exhaust a quantity of air equal to not less than six times the cubic contents of such space each hour. This mechanical exhaust shall be drawn from a point not more than 18 inches above the floor line and shall be evenly distributed over the entire area in which automobiles are stored. The fan discharge shall be taken to a point above the roof of the building or to the outer air at a point not less than 20 feet from any window in the building or any adjoining building.

(d) An automobile repair shop, tire vulcanizing shop, battery shop and automobile painting shop may be maintained in a public or commercial garage provided they are separated from the automobile storage section of the public or commercial garage by partitions of concrete, brick or terra cotta tile, which shall extend from the floor to the ceiling, or floor to the roof above; provided, however, that no battery shop or automobile painting shop shall be maintained in any public or commercial garage located under a place of public assembly or basement of any building occupied by a public or commercial garage. All openings in said partitions shall be located as directed by the Board of Public Works and the protection to such openings shall consist of an approved underwriter's automatic fire door on inclined tracks with fusible links or an approved underwriter's automatic rolling steel shutter with fusible links, in addition to the temporary protection for opening or closing, which must be constructed of plates and angles, and if glazed, wire glass only shall be used. All such shops shall be conducted, maintained and operated as required by all ordinances governing such establishments.

(e) *All private garages with a floor area in excess of four hundred (400) square feet shall be constructed as provided in this ordinance for public or commercial garages, if built independent of any other building. Detached private garages having four hundred (400) square feet or less floor area shall not have a height of more than sixteen' (16) feet from the floor to the highest point of the roof, and they may be built with timber or steel frames which shall be covered with not less than three-quarter ($\frac{3}{4}$) inch timber sheathing or number twenty-six (26) gauge corrugated metal, and have their roof covered with fireproof roofing material. They shall rest on continuous masonry foundations and have masonry floors, and shall have ventilating openings as specified in paragraph (c), Section 3, of this ordinance.*

Not more than one detached private garage building shall be built, maintained or operated on any single lot, and shall only be used for private garage purposes.

Section 2. This ordinance shall take effect immediately.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Junipero Serra Highway Development.

The following, laid over from last meeting, was taken up:

JOINT HIGHWAY DISTRICT NO. 10 OF THE STATE OF CALIFORNIA

Room 375, City Hall
San Francisco, California

San Francisco, July 30, 1931.

To the Honorable Board of Supervisors of the City and County of San Francisco:

Gentlemen: I am directed by the Board of Directors of Joint Highway District No. 10 to request that the matter of providing the sum of \$130,333.34, being the portion of the City and County of San Francisco for the construction of Contract No. 2 of the Junipero Serra Boulevard Extension, be brought before the Board of Supervisors at once.

A certified copy of Resolution No. 57, adopted by the Directors of said Highway District on March 20, 1931, and transmitted to your honorable Board on the same date, and acknowledged, is enclosed herewith. Said resolution shows the following amounts assessed:

State of California's share	\$ 76,666.66
San Mateo County	23,000.00
City and County of San Francisco	130,333.34

The amounts assessed are in accordance with the portions to be borne by each county composing the District, as agreed by the said counties on the formation of same. The amounts above set forth, as assessed against the State of California and against the county of San Mateo, have already been paid into the treasury of the Joint Highway District No. 10, only the City and County of San Francisco is delinquent.

The necessary rights of way for the completion of this project are now being acquired with funds on hand, and the amount due from the City and County of San Francisco is required for the letting of Contract No. 2.

It has been suggested to your Finance Committee by the Directors that San Francisco can pay its assessment in three payments, spaced at ninety-day intervals, and in the event that San Francisco cannot make this payment in a lump sum, it would be satisfactory to receive this money in a first payment of \$40,000, an additional \$40,000 ninety days thereafter, and the final payment of \$50,333.34 ninety days after the second payment. A resolution should be passed by your honorable Board authorizing the payment of the first \$40,000, with a provision, promising the two subsequent payments on specific dates thereafter.

We would call to your attention that the one-mile section of this boulevard already completed by the District carries 20,000 machines every Sunday and holiday, and you can thus readily realize the importance of proceeding with the work. This road is the main outlet from the Richmond and the Sunset districts, connecting as it does with three of the Bond Issue Boulevards recently completed.

The State of California and the county of San Mateo have met their obligations promptly, and, under the agreement on which this District was created, San Francisco must not lag behind.

It is extremely imperative that these moneys now due from the City and County of San Francisco be made immediately available, and we urge upon you to take this matter up at your next meeting.

Awaiting your favorable action, I remain

Respectfully,

M. R. SCHWAB,

Secretary, Joint Highway District No. 10 of the State of California.
Referred to Finance Committee.

RESOLUTION NO. 57 OF JOINT HIGHWAY DISTRICT NO. 10 OF THE STATE OF CALIFORNIA CREATING AN ADDITIONAL ASSESSMENT UPON SAN MATEO COUNTY AND SAN FRANCISCO COUNTY, THE COUNTIES EMBRACED IN SAID JOINT HIGHWAY DISTRICT, AND THE STATE OF CALIFORNIA, ACCORDING TO THE BENEFITS THAT WILL ACCRUE TO SAID COUNTIES AND STATE BY THE CONSTRUCTION OF SECTION ONE (1), UNIT B, BEING CONTRACT NO. 2 OF JUNIPERO SERRA BOULEVARD IN THE COUNTY OF SAN MATEO.

Whereas, the Board of Directors of Joint Highway District No. 10 of the State of California at its regular meeting on the 20th day of March, 1931, held at the City and County of San Francisco, State of California, called pursuant to published notice thereof in accordance with the provisions of section 14 of Joint Highway Districts Act, and held for the purpose of hearing engineer's report filed heretofore and considering the same, and for the purpose of making an additional assessment upon the State of California, the county of San Mateo and the City and County of San Francisco for the construction of Section

One (1), Unit B, of Junipero Serra Boulevard in the county of San Mateo; and

Whereas, the said Board of Directors after hearing thereon and after filing the said engineer's report and considering the same and after having finally determined not to create a highway assessment district; and

Whereas, the engineer employed by said District has filed an estimate covering the cost of completion of Section One (1), Unit B, including rights of way therefor, in the sum of two hundred thirty thousand and 00/100 dollars (\$230,000.00); and

Whereas, the Board of Directors is of the opinion that the entire cost shall be borne by San Mateo and San Francisco counties, the counties composing said District, and the State of California, according to the benefits that will accrue to said counties and State by the construction of said portion of Junipero Serra Boulevard;

Now, Therefore, Be it Resolved, That the report of said engineer is hereby approved and filed and the assessment for the same against said counties and State shall be in the following amounts:

State of California's share (1/3)	\$ 76,666.66
San Mateo County: 15% of \$153,333	23,000.00
San Francisco County: 85% of \$153,333	130,333.34

Total required for contract and rights of way\$230,000.00

Said amounts assessed against said counties are the proportionate amounts to be borne by said counties as fixed and determined at the formation of this District.

And Be It Further Resolved, That the Clerk shall certify to this resolution and transmit certified copies to the State Board of Control of the State of California and to the Boards of Supervisors of the counties of San Francisco and San Mateo.

Adopted: March 20, 1931.

Ayes: Hickey, Gallagher and Roncovieri.

Noes: None.

T. L. HICKEY,

President.

ALFRED RONCOVIERI,

Director.

ANDREW J. GALLAGHER,

Director.

State of California, City and County of San Francisco, ss.

I, Mary R. Schwab, Secretary of Joint Highway District No. 10 of the State of California, do hereby certify that the annexed Resolution No. 57 is a full, true and correct copy of the original thereof on file in this office.

In Witness Whereof, I have hereunto set my hand and affixed the official seal of Joint Highway District No. 10, this 20th day of March, 1931.

(Seal)

MARY R. SCHWAB,

Secretary, Joint Highway District No. 10 of the State of California.

Postponement of Improvement of Junipero Serra Boulevard.

Whereupon, Supervisor Hayden presented:

Resolution No. 34879 (New Series), as follows:

Whereas, under date of July 30, 1931, Secretary of the Joint Highway District No. 10, State of California, has recommended to the Finance Committee that San Francisco is liable for an assessment of \$130,333.34 as the share of San Francisco County jointly with San Mateo County and the State of California for the purpose of building the extension of Junipero Serra boulevard; and

Whereas, it was further requested that these payments were to be made as follows: First payment, \$40,000. an additional \$40,000 ninety

days thereafter, and a final payment of \$50,333.34 ninety days after the second payment, making the total payments payable during the fiscal year 1931-1932; and

Whereas, the Good Roads Fund, out of which this revenue is chargeable, has commitments that make it mandatory on our part to use the entire amount of money set aside in the Good Roads Fund which will be available from the moneys received from the Gasoline Tax and Motor Vehicle Tax and Motor Bus and Truck Tax for the coming fiscal year; and

Whereas, in making up the budget for the City and County of San Francisco for the year 1931-1932, no improvements were provided for, by reason of the existing economic conditions of the times; therefore, be it

Resolved, That the Board of Supervisors, through its Finance Committee, recommends to the Joint Highway District No. 10 that this improvement on Junipero Serra boulevard be postponed for one year, for the reason of lack of the necessary funds to meet our assessment at this time.

Special Session of Legislature for Relief of Unemployed.

Communication from the Civic League of Improvement Clubs, trans-
mitting a resolution of its Board of Governors calling for a special
session of the State Legislature for the purpose of providing for rais-
ing fifteen to twenty millions of dollars for public improvements to
relieve unemployment this winter.

Referred to Committee on Unemployment.

Supervisor Shannon presented:

Resolution No. ——— (New Series), as follows:

Whereas, this country is facing the third winter of a period of
depression; and

Whereas, many deserving San Francisco citizens are in a critical
financial situation, some in destitute circumstances because they can-
not obtain employment; and

Whereas, many small home owners find themselves in a serious
predicament, being out of work, and have added to their burden of
finding sustenance for themselves and for their families the task of
paying taxes and meeting payments of their homes; and

Whereas, in some instances citizens are being evicted from their
homes; therefore, be it

Resolved, that the Board of Supervisors of the City and County
of San Francisco urgently request Governor James Rolph, Jr., to give
serious consideration to a policy of a restriction of road building
activities throughout the State for the next year and the application
of at least one-half of the County Road Fund which the State collects
annually from the gasoline tax, to charitable purposes.

Referred to Supervisor Havenner of Committee on Unemployment.

City Attorney to Intervene in Suit to Validate \$35,000,000 Golden Gate Bridge and Highway District Bonds.

Supervisor Spaulding presented:

Resolution No. 34884 (New Series), as follows:

Whereas, the directors of the Golden Gate Bridge and Highway District have in the Supreme Court an action to validate the \$35,000,000 bond issue voted by the people last November; and

Whereas, the court action instituted by the directors to expedite construction of the bridge is being questioned by "friends of the court," who want it dismissed for the sole purpose of delaying the start of work on the project and otherwise harassing the District, for purely selfish purposes; now, therefore, be it

Resolved, that it is the opinion of this Board of Supervisors that the intervention in the suit by these interests is considered against public interest and public policy; and be it

Further Resolved, That the City and County of San Francisco, a member of the bridge district, take steps to counteract the move by the opponents of the bridge and authorize the City Attorney to intervene in the suit as a friend of the court for the purpose of assisting the district in its efforts to obtain a speedy ruling from the Supreme Court so that the project may be started before the coming winter to provide work for our many unemployed.

Adopted by the following vote:

Ayes—Supervisors Andriano, Breyer, Canepa, Gallagher, Garrity, Havenner, Hayden, McGovern, McSheehy, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton, Suhr—17.

Amending Ordinance No. 8564 (New Series), Garage Ordinance.

On recommendation of Fire Committee.

Bill No. 9462, Ordinance No. ——— (New Series), as follows:

Amending Subdivisions (c), (d) and (e) of Section 1 and Subdivision (e) of Section 3 of Ordinance No. 8564 (New Series), entitled "An ordinance governing the construction, equipment, maintenance and operation of public, commercial and private garages; regulating and providing for the storage and use of gasoline in connection with public, commercial and private garages; duties of the Fire Marshal; penalty for violation; repealing Ordinance No. 746 (New Series), and all ordinances or parts of ordinances in so far as they conflict with this ordinance."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Subdivisions (c), (d) and (e) of Section 1, and Subdivision (e) of Section 3 of Ordinance No. 8564 (New Series), the title of which is recited above, are hereby amended to read as follows:

Section 1. Whenever used in this ordinance, the following terms and words are defined as herein specified and shall be deemed and construed to have the meaning ascribed to them in this section:

(a) An "automobile" shall mean any self-propelling vehicle.

(b) "Gasoline" shall mean and include any product of petroleum flashing below the temperature of 110 degrees Fahrenheit. The Fire Marshal of the City and County of San Francisco shall determine such flashing point.

(c) A "commercial garage" is a building wherein four or more automobiles designed, used or maintained for the transportation of persons or property and operated by the owner or owners thereof, are kept, stored, repaired and/or serviced, and where no charge is made for the storage, keeping, repairing and servicing of same.

(d) A "public garage" shall mean any building, structure or part thereof, wherein four or more automobiles are kept or stored by the public, or wherein storage facilities for four or more automobiles are advertised by any sign or device affixed to or painted upon said building or structure or any part thereof, or otherwise, or where a charge is made for the storage and keeping of four or more automobiles.

A public garage business may embody the storage, cleaning, repairing and servicing of automobiles, and their equipment, and the storing and selling of gasoline and petroleum products, automobile supplies and accessories.

In apartment house buildings, and hotel buildings, the above definitions (c) and (d) shall not operate against providing and making a charge for automobile storage space as follows: In apartment house buildings, not exceeding three hundred (300) square feet for each apartment within the building; in hotel buildings, not exceeding one hundred and fifty (150) square feet for each room within the building, provided that the spaces in which automobiles are stored conform with the State Housing Act of 1923 and amendments thereto, and also provided that all enclosures or exterior walls from the foundations to the surface of the floor constituting the ceiling of the garage shall be of masonry as required for class "C" buildings. Said definitions shall not operate against providing and maintaining in apartment house buildings and hotel buildings a greater space than herein defined, provided that when said limitations are exceeded the construction shall be class "A" or "B" as defined in the Building Laws of the City and County of San Francisco, and provided further, that any apart-

ment house building, or hotel building, wherein four or more automobiles are kept or stored by any person or persons not residing in the building shall be a public garage as herein defined.

In flats or dwellings, the above definitions (c) and (d) shall not operate against providing and maintaining storage space for four or more automobiles, provided, that where the space in which automobiles are stored exceeds the area of four hundred fifty (450) square feet, the construction shall conform with the State Housing Act of 1923 and amendments thereto, and provided further, that where such space is maintained in excess of four hundred fifty (450) square feet, no portion of same shall be rented or hired out to any person or persons not residing in the building.

(e) Any other building, structure or part thereof, wherein one or more automobiles are kept or stored, except those establishments which are specifically regulated by any other ordinances, shall be deemed to be a "private garage."

Construction.

Section 3. (a) Every building, structure or part thereof hereafter erected, altered or changed so as to be occupied, conducted, maintained or operated as a public or commercial garage shall be of class "A," "B" or "C" construction (as defined in the Building Laws of the City and County of San Francisco), provided said building or structure is not more than one (1) story in height, and if more than one story in height, it shall be of either class "A" or "B" construction. The roof of such class "C" building or structure shall be of metal supported on steel or timber trusses. The floors of all garages shall be concrete construction or steel frame with concrete construction.

(b) A public or commercial garage shall not be maintained in any building that is occupied in any part for any other purpose than that necessary for the operation of a public or commercial garage, unless said building is of class "A" or "B" construction throughout. The portion occupied as a public or commercial garage shall have no entrance, exit or other opening of any kind whatsoever into other portions of the building not so occupied, unless said opening or openings are located as required by the Board of Public Works. Such openings shall be protected with a full underwriter's automatic fire door on inclined tracks with fusible links, or an approved underwriter's automatic rolling steel shutter, fusible links on both sides of the opening in the wall. Any screen door required in the opening shall be equal to a full kalamein or hollow metal construction. Walls separating such portion occupied as a public or commercial garage and the remainder of the building shall be of brick, stone or reinforced concrete. The floors which constitute the ceilings of such garage shall be of reinforced concrete slabs, not less than four (4) inches thick, supported by concrete fireproofed carrying units of the frame. These slabs shall be not less than six (6) inches thick, where they constitute the floor of the public assembly room and the ceiling of the garage. All such slabs shall be reinforced so as to develop their full strength to resist upward pressures, and the ceilings of all garages under places of public assembly shall be equipped with an automatic sprinkler system as provided in all ordinances of the City and County of San Francisco in reference thereto.

(c) Every space in a building hereafter erected in which automobiles or other motor vehicles are placed or stored shall be provided with ventilation as follows:

When the total space on any floor to be used for such purposes is 4000 square feet or less, such space shall be provided with ventilation outlets in the walls thereof.

The total areas of such ventilating outlets shall be as follows:

For a space of 1000 square feet or less, 200 square inches. For each additional space of 200 square feet over 1000 square feet this area shall

be increased 50 square inches until the total area becomes 525 square inches, which shall be the maximum required for a space of not more than 4000 square feet.

The top of ventilating outlets shall be not more than 18 inches above the floor. Such outlets shall be protected with galvanized wire rods not less than $\frac{3}{8}$ -inch in diameter so as to provide opening of $\frac{1}{2}$ -inch mesh.

Protections of ornamental design may be used provided they are galvanized and have a strength equal to that of the rods. All protections shall be firmly anchored in or secured to their supports. All ventilating outlets shall lead directly to a free and unobstructed circulation of air; but shall not lead into inner courts.

All natural ventilating outlets shall be arranged so that there will be at least one outlet in each of two opposite walls of said garage and not less than one-half of the total area of outlets required shall be provided in each of such walls. The free circulation of air between ventilating outlets shall be maintained.

When such space has a floor area of over 4000 square feet a mechanical exhaust ventilation system shall be provided. This system shall consist of power driven exhaust fan or fans of the positive centrifugal type and shall have sufficient capacity to exhaust a quantity of air equal to not less than six times the cubic contents of such space each hour. This mechanical exhaust shall be drawn from a point not more than 18 inches above the floor line and shall be evenly distributed over the entire area in which automobiles are stored. The fan discharge shall be taken to a point above the roof of the building or to the outer air at a point not less than 20 feet from any window in the building or any adjoining building.

(d) An automobile repair shop, tire vulcanizing shop, battery shop and automobile painting shop may be maintained in a public or commercial garage provided they are separated from the automobile storage section of the public or commercial garage by partitions of concrete, brick or terra cotta tile, which shall extend from the floor to the ceiling, or floor to the roof above; provided, however, that no battery shop or automobile painting shop shall be maintained in any public or commercial garage located under a place of public assembly or basement of any building occupied by a public or commercial garage. All openings in said partitions shall be located as directed by the Board of Public Works and the protection to such openings shall consist of an approved underwriter's automatic fire door on inclined tracks with fusible links or an approved underwriter's automatic rolling steel shutter with fusible links, in addition to the temporary protection for opening or closing, which must be constructed of plates and angles, and if glazed, wire glass only shall be used. All such shops shall be conducted, maintained and operated as required by all ordinances governing such establishments.

(e) *All private garages with a floor area in excess of four hundred (400) square feet shall be constructed as provided in this ordinance for public or commercial garages, if built independent of any other building. Detached private garages having four hundred (400) square feet or less floor area shall not have a height of more than sixteen (16) feet from the floor to the highest point of the roof, and they may be built with timber or steel frames which shall be covered with not less than three-quarter ($\frac{3}{4}$) inch timber sheathing or number twenty-six (26) gauge corrugated metal, and have their roof covered with fireproof roofing material. They shall rest on continuous masonry foundations and have masonry floors, and shall have ventilating openings as specified in paragraph (c), Section 3, of this ordinance.*

Not more than one detached private garage building of frame construction shall be built, maintained or operated on any single lot, and shall only be used for private garage purposes.

Section 2. This ordinance shall take effect immediately.

Supervisor Power presented:

Resolution No. ————— (New Series), as follows:

Whereas, the Legislature of the State of California in 1929 so amended Section 710 of the Code of Civil Procedure of the State of California as to exempt from execution salaries and wages of persons employed by the City and County of San Francisco who are not elective officers or who receive a statutory salary; and

Whereas, there are about 11,000 employees of this City and County whose salaries are affected thereby; and

Whereas, said employees are citizens of San Francisco and are honest and industrious and have a sincere desire and determination to pay their just and honest obligations, and are desirous of and have been in the habit for many years in the past of obtaining credit for goods, wares and merchandise; and

Whereas, this said amendment to said section has been recently upheld by the District Court of Appeal of the State of California and this law will handicap said employees of the City and County of San Francisco in obtaining credit from the merchants of this City and County; now, therefore,

Be It Resolved, By the Board of Supervisors, in regular meeting assembled this seventeenth day of August, 1931, that it is the intention of this City and County to continue in its employ only persons of honesty and integrity and all officers, boards and commissions are hereby instructed and directed to file charges in accordance with Section 12 of Chapter XIII of our Charter, against any individual employee who fails, neglects and refuses to pay and discharge all just and legal obligations by such employee incurred.

Condemnation of Land, Del Monte Street.

Supervisor McGovern presented:

Resolution No. ————— (New Series), as follows:

Whereas, twenty-eight property owners and residents on Del Monte street find themselves in the peculiar position of owning their homes and living on an unaccepted street; and

Whereas, this situation is due entirely to no negligence on their part, but is due entirely to negligence on the part of the promoter,

who, in selling the property, failed to ascertain the status of the street; and

Whereas, said property owners find themselves at a financial inconvenience so far as loans are concerned; and

Whereas, it means only the purchase of a three-foot strip to make of this street one of the necessary width for acceptance; now, therefore, be it

Resolved, That the Board of Supervisors recommends, under eminent domain, that condemnation proceedings be instituted to acquire this strip of land three feet in width and two hundred and eighty-seven feet in length, giving to these people the same rights enjoyed by other home owners in the City and County of San Francisco.

All such shops shall be conducted, maintained and operated as required by all ordinances governing such establishments.

(e) All private garages with a floor area in excess of four hundred (400) square feet shall be constructed as provided in this ordinance for public or commercial garages, if built independent of any other building. Supervisor Spaulding reported to Board of the success of the Century Air Lines and their satisfaction with the San Francisco Airport.

The following was read by the Clerk and ordered made part of the record:

San Francisco, Calif., August 21, 1931.

To the Honorable, the Board of Supervisors, City Hall, San Francisco, California.

Gentlemen: I return herewith your Resolution No. 34862, received in this office August 11, 1931, without my approval or disapproval.

The City Attorney has advised me that the resolution, not having been passed by the requisite number of votes of your Board, it does not require any action on my part.

I enclose a copy of the opinion of the City Attorney on the subject.

Respectfully,

ANGELO J. ROSSI, Mayor.

Opinion of City Attorney in re Appeals Considered by Board of Supervisors From Action of City Planning Commission.

August 21, 1931.

Dear Sir: You have submitted to me Resolution No. 34862 (New Series), transmitted to you by the Board of Supervisors after action thereon by said Board on August 10, 1931. The resolution was offered upon the question of an appeal from the action of the City Planning Commission rezoning certain property from the Second Residential District to the Commercial District. The resolution reads as follows:

"Resolved, That the decision of the City Planning Commission, by its Resolution No. 437, granting the application to rezone from Second Residential District to Commercial District, property located at the northeast corner of Twenty-fifth street and San Jose avenue, is hereby approved."

It appears from the resolution that the vote of the Supervisors upon the same was as follows: Ayes—9 votes, Noes—6 votes, Absentees—3. It is therefore quite evident that the resolution did not receive a majority vote of all of the members of the Board.

Appeals from the rulings of the City Planning Commission are provided for in Section 4 of Article XVIII of the Charter. The portion of the section pertinent to the present inquiry reads as follows:

"Upon completion of the hearing or hearings by the Supervisors, which shall include a hearing and consideration of all data which the Commission may desire to present, the Supervisors by resolution approved by a vote of not less than two-thirds of all members thereof may disapprove and, by a majority of all the members of the Board, may approve the action of the Commission."

The Charter provision is very loosely drawn, and it is quite evident that in acting upon an appeal by a resolution to approve the action of the commission, in many instances it might not be possible to acquire a majority vote of all of the members of the Board of Supervisors. However, I am of the opinion, from the reading of the above mentioned section, that it was the intention of the Charter framers to require the votes of twelve members of the Board of Supervisors to override the action of the City Planning Commission.

In the instant case it is quite evident that only six members of the Board were in favor of overruling the commission, and therefore, the matter of the appeal from the ruling of the commission did not receive the requisite number of votes provided for in the charter to reverse the decision of the Commission, and the matter is exactly in the same position as any other ordinance or resolution which might be

submitted to the vote of the Board and not receive the requisite majority vote to pass it.

Section of Chapter I, Article II of the Charter provides:

"Every bill and every resolution as hereinbefore provided, which shall have passed the Board and shall have been duly authenticated, shall be presented to the Mayor for his approval."

The resolution mentioned in the instant case did not pass the Board by the requisite number of votes, and therefore, should not have been presented to you for approval or disapproval. Your approval or disapproval would add nothing to it any more than it would add to any other ordinance or resolution of the Board passed by less than the requisite number of votes, and having failed to do so, your approval or disapproval adds nothing to it.

You are therefore advised that the resolution should be returned to the Board of Supervisors without action on your part, and that your failure to approve or disapprove the resolution within the period provided for in Section 16 above mentioned, does not act as an approval of the resolution.

Sincerely yours,

JOHN J. O'TOOLE, City Attorney.

Whereas, these audits are duplications of the identical audits recently made in the San Francisco Water Department by one of San Francisco's most reputable firms of Certified Public Accountants, William Dolge & Company, and these Grand Jury audits will, under the circumstances, be a total waste of public funds; and

Whereas, under the new Charter another audit will be required in about six months; and

Whereas, the Grand Jury and the Presiding Judge of the Superior Court have the power to order this expense without the knowledge or the approval of the Board of Supervisors and thereby force this unnecessary expense on the taxpayers; now, therefore, be it

Resolved, That the Board of Supervisors respectfully appeals to and urges the Grand Jury and Honorable Lile T. Jacks, Presiding Judge of the Superior Court, to omit their proposed audit of Departments that have only recently been audited and thereby assist the Board of Supervisors to provide funds for the great emergency of unemployment without an additional unnecessary burden of between \$30,000 and \$40,000 upon the taxpayers of this City and County, provided that the provisions of this resolution shall not apply to such departments which the Grand Jury may feel it imperative to investigate because of alleged irregularities.

REPORTS.

The following reports were presented and read by the Clerk:

Report of Finance Committee.

September 14, 1931.

To the Honorable Board of Supervisors.

Gentlemen: The Finance Committee reports for action today a tax rate ordinance fixing the total tax rate of the City and County of San Francisco for the fiscal year 1931-32, \$4.04.

For several weeks the committee has been working daily with accountants and the Special Committee on Unemployment, headed by Supervisor Havenner, chairman.

After reviewing all the items of the Budget and receiving the Auditor's reports, it was found that a rate of \$3.88 would have financed the Budget, after eliminations had been made. The aim of the committee was to provide as much money as possible for the relief of unemployment and, at the same time, avoid a raise in the tax rate. After many adjustments were made it was decided to set up an item in the Budget of \$700,000 for direct relief, and to include in the General Fund \$800,000 to be used as and when it was necessary and could be done legally. This particular \$800,000 is premiums received on the sale of bonds, which premiums have heretofore, for many years, been applied to bond interest and redemption charges.

The principal reduction in Budget estimates was made by the Board of Education, amounting to \$834,000, out of the Special School Tax. The committee wishes to express its appreciation to the Board of Education for its cooperation in this respect. To provide for the continuation of the school-building program the Board has, on recommendation of the Finance Committee and the Board of Education, started bond issue proceedings to replace in the Board of Education Construction Fund sufficient money to carry on the erection of necessary buildings.

Several other adjustments were made, details of which are merely accounting data.

The most difficult problems confronting the Auditor and the accountants are the falling off of revenues from outside sources, the Assessor's collections on unsecured personal property and securities, and an unforeseen reduction in the Hetch Hetchy power revenue. The committee estimated this year a power revenue of \$1,500,000, which was considerably less than the amount heretofore used by former committees, and then, because of the shortage of water and the compulsory shut-down of the power plant, this sum was reduced to \$600,000 plus.

The Board will recall that the Community Chest and social agencies have estimated a minimum of \$2,000,000 for relief to be provided from the municipal revenues. The adjustments made in the tax rate provide \$1,500,000, \$700,000 in the special item and \$800,000 included in the General Fund. To this may probably be added a portion of the \$400,000 unsold Park Bonds, 50 per cent of which will be expended for labor.

The Board and the public should also bear in mind that the Board of Supervisors has limited jurisdiction in fixing a tax rate. It is estimated that more than 90 per cent of the charges against the municipality are statutory, either Charter or State law. The School Department expenditures are no longer subject to the discretion of the Board of Supervisors; the Police Department, Fire Department, old age pension, maintenance of blind, maintenance of minors, Superior Court and Municipal Court salaries and expenses, and practically all of the expenditures of the county officers are fixed by law. There is left to the discretion of the Board to appropriate for street lighting, street cleaning, street maintenance, sewer repairs, and the erection and maintenance of public buildings. These items constitute approximately 7 per cent of the Budget expenditures.

Report of Special Committee on Unemployment Relief.

San Francisco, Cal., September 14, 1931.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: Your Special Committee on Unemployment Relief has made a most exhaustive study of the City and County Budget for the current fiscal year, and of the estimated revenues from all sources other than direct taxation, with the purpose of considering every possible retrenchment which could make municipal funds available to relieve the predicted unemployment crisis during the coming winter.

As a result of its studies the committee believes that it will be possible to make at least \$700,000 available for emergency unemployment relief out of the revenues to be collected from all sources without increasing last year's tax rate.

It has been the established custom in San Francisco for years past to use the premiums received from the sale of bonds for the payment of bond interest, and, following this custom, your Finance Committee, in compiling the annual Budget, had counted upon the use of \$800,000 of bond premium funds for bond interest payments during the current year. If this time-honored procedure could be followed out now, the total amount of money available for unemployment relief, without increase of taxes, would be increased to \$1,500,000. However, the City Engineer, while your special committee was engaged in its work, raised a question as to the legality of paying bond interest out of premiums, and indicated that he would insist that the premiums received from the sale of Hetch Hetchy bonds be used to swell the construction fund. He has cited a recent appellate court decision upon a case in another county. If the City Engineer's objection is sustained, it will not be possible to provide more than \$700,000 out of municipal revenues for unemployment relief without increasing the tax rate.

The special committee has been beset with many difficulties and

unexpected obstacles in its task of finding funds to meet the emergency. At the outset it was discovered that the expected net revenues from the Hetch Hetchy power project, which, when the annual Budget was made last May, were estimated by the City Engineer at approximately \$1,500,000, would have to be reduced to \$769,000 as a result of the unprecedented drought conditions of the present year. It was also found that by reason of increase in delinquencies in the payment of taxes and other revenues, it will be necessary to raise additional amounts to finance the Budget and guard against a deficit. So, in order to provide the suggested \$700,000 for relief, it was necessary to make total deductions and savings aggregating \$2,432,425. The Board of Education has cooperated most effectively in making these extensive reductions and savings possible, by voluntarily eliminating for the current fiscal year the sum of \$834,532 from its Budget item for building construction. And the school teachers who are entitled, through a recent court decision, to back pay have aided very materially by voluntarily agreeing to the postponement of \$350,000 due them until the next fiscal year.

Two of the public utilities now owned and operated by the people of San Francisco have also made important contributions to the program of emergency relief. The Water Department surplus to be transferred to the General Fund will amount to \$273,000, and the committee has also voted to recommend the transfer of a total of \$688,000 from the funds of the Power Department for the same purpose.

No account has been taken in the foregoing estimates of the remaining balance of \$400,000 worth of unsold bonds from the unemployment bond issue of last winter. These bonds will be sold and the proceeds used for the improvement of Aquatic Park and the Yacht Harbor and for the construction of roads in the parks. A considerable portion of this money will be expended for the employment of labor, and it is only proper that this should be credited to the total of the relief program for the current year.

The committee has voted to recommend that the State Legislature be requested to amend the State bonding laws so that the City and County of San Francisco will have the legal authority to issue bonds for direct unemployment relief purposes. This authority is now vested in other municipalities, and direct unemployment relief has been provided in this manner in New York and elsewhere.

Your special committee is unanimously of the opinion that no matter what amount of money may be made available out of municipal revenues for relief, the whole problem of unemployment is of such magnitude that it cannot be solved by local action, but must be dealt with by cooperative measures of the Federal Government and the State, county and municipal governments, and agencies throughout the country. We call attention again to the fact that, under the existing California laws, our county tax levy for unemployment cannot be applied equitably to all classes of property owners, and we urge the importance of prompt action by the State Legislature to remedy these inequities. We also urge the private relief agencies, notably the Community Chest, to make special effort to obtain voluntary contributions from the owners of operative property and the so-called intangible properties, both of which will be exempt from the special tax to be levied this year, which will be at least proportionate to the tax to be paid by the owners of real and personal property.

SPECIAL COMMITTEE ON UNEMPLOYMENT RELIEF.

Whereas, The White Cross Anti-Narcotic Society has, by contacting the families of addicts, had these addicts sent, under suspended sentence, to other States, to their families, rather than having them put in jail in San Francisco for long terms, thus saving the taxpayers thousands of dollars annually; and

Whereas, since January of this year, some ten such cases have been specifically instanced in a document on file with the Supervisors, showing that in the specified cases some \$5,000 has been saved the City by the White Cross aid in these cases; and

Whereas, there are other cases which have been similarly handled by the White Cross, and others are constantly arising; and

Whereas, the District Attorney's office, the Public Defender's office and the judges all combine to ask the White Cross to assist in difficult cases, as shown by a letter from the Public Defender's office on file with the Supervisors; and

Whereas, the White Cross is the only organization devoting all its time and income to this educational, prevention and social service part of the narcotic problem; and

Whereas, over a year ago Dr. William Hassler was asked by the Health Committee of the Supervisors to investigate the work of the White Cross; and

Whereas, Dr. Hassler, in a letter on file with the Supervisors, warmly commended the work of the White Cross and recommended that the Supervisors grant their petition for \$1,000 to assist in this work; now, therefore, be it

Gentlemen: We desire as an association to express our very sincere appreciation of the excellent way in which you have succeeded in hold-

Our association appreciates very much the difficulty you had to overcome and we feel that the property owners of San Francisco owe a vote of thanks to you all for the results obtained.

Your chairman, Mr. J. Emmet Hayden, always met us in a friendly spirit and, while showing a full knowledge of the requirements of the various departments of government, was ever ready to keep expenditures down to a minimum and still retain efficiency.

Yours faithfully,

E. B. DeGOLIA, Chairman,

Opinion of City Attorney in re Vote on Appeal From City Planning Commission.

The following was presented and read by the Clerk:

September 18, 1931.

Gentlemen: This office is in receipt of the following resolutions requesting an opinion:

"Resolved, That the City Attorney be and he is hereby respectfully requested to submit to the Board of Supervisors at the earliest opportunity, a full interpretation of Paragraph 4 of Section 4 of Article XVIII of the Charter, reading as follows:

"'Upon conclusion of the hearing or hearings by the Supervisors, which shall include hearing and consideration of all data which the Commission may desire to present, the Supervisors, by resolution approved by a vote of not less than two-thirds of all members thereof, may disapprove and, by a majority of all of the members of the Board, may approve the action of the Commission; provided, however, that any change in zoning classification made by the Commission on its own motion or change diminishing the use to which property may be put, shall not become effective until ratified by a vote of two-thirds of the entire membership of the Board of Supervisors. In case of approval or disapproval by the Commission, or by the Supervisors on

appeal, as herein provided, of a proposed change in classification, such proposed change may not be resubmitted to nor reconsidered by the Commission for at least one year.'

"Further Resolved, That the City Attorney advise this Board whether or not the action of the Board of Supervisors in the matter of rezoning the northerly line of Chestnut street east of Scott street constitutes a decision within the meaning of the above-quoted Paragraph 4 of Section 4 of Article XVIII of the Charter.

"Further Resolved, That the City Attorney is requested to furnish an opinion on the following question:

"If at the end of hearing above referred to, a resolution is presented to approve the decision, and an amendment to same, to disapprove of the decision of the City Planning Commission, and the vote having been had on the amendment to disapprove, said amendment receives less than the two-thirds of the vote necessary, does the decision of the City Planning Commission stand approved, or must the decision of the Planning Commission be approved by at least a majority vote of the members of the Board present and voting?

"The City Attorney is also asked to clarify the provisions of this section as to whether the motion to approve is necessary after the motion to disapprove has not received the required vote to override the Commission's decision."

Opinion

Section 4 of Article XVIII of the San Francisco Charter provides for the zoning and classification by the City Planning Commission. It also sets up a method of appeal from the rulings of the City Planning Commission. This method of appeal places the Board of Supervisors in the position of an appellate tribunal. It is provided that when an appeal is taken the Board of Supervisors "by resolution approved by a vote of not less than two-thirds of all members thereof, may disapprove and, by a majority of all of the members of the Board, may approve the action of the Commission."

At first blush the requirement of a two-thirds vote for disapproval and a majority vote for approval would appear to present an anomalous situation, for the reason that when a vote of all of the members of the Board does not result in two-thirds for disapproval and a majority for approval the appeal remains undecided. It is an elementary rule of law that when an appellate tribunal cannot by a majority decide in favor of one side or another the appeal is denied.

See: *Ayers v. Bensley*, 32 Cal. 632; *In re Ladue*, 15 Cal. App. 188.

However, in the instant case this principle of law is not applicable for the reason that the Charter itself provides how an appeal shall be disposed of. Section 4 of the City Planning Act above mentioned, provides for the method of appeal from the action of the City Planning Commission. The pertinent provision of the section reads as follows:

"On the completion of the hearing on any proposed change, the Commission shall, by resolution, disapprove or approve the proposed change, which if approved shall not become effective for thirty days. Property owners affected may appeal from any ruling of the Commission by filing protests in writing against such ruling with the Board of Supervisors within thirty days of the date of the Commission's ruling thereon. * * * Upon the filing of said protests the ruling of the Commission shall be suspended pending the action by the Board of Supervisors upon said appeal."

So much for the method of appeal, and we are taking it as a fact that the proper procedure has been followed in the present case. Now for the disposition of the appeal. The pertinent portion of the same section on this point reads as follows:

"Upon the conclusion of the hearing or hearings by the Supervisors, which shall include hearing and consideration of all data, which the Commission may desire to present, the Supervisors by a resolution,

approved by a vote of not less than two-thirds of all of the members, thereof may disapprove and, by a majority of all of the members of the Board, may approve of the action of the Commission."

We must read both portions of the section together, and give meaning to all of the language. Note the language of that portion of the section first above quoted, "the ruling of the Commission shall be suspended *pending action by the Board of Supervisors upon said appeal.*" The latter quotation from the section provides how that action shall be taken. The mode prescribed is the measure of the power of the Supervisors. They may overrule the Commission by a two-thirds vote of all of the members *and* (not *or*) they may sustain it by a majority. When a particular method is prescribed for a legislative body to perform a certain act, it must be performed in the manner prescribed or it is not a valid act. Judge McQuillin in his work on Municipal Corporations has expressed the rule as follows: "The vote specified in the law applicable must be obtained to constitute the action valid and binding." (*City of Fort Worth v. Lillard*, 272 S. W. 577; McQuillin on Municipal Corporations, 2d ed., par. 626.)

In the instant case the resolution of the Board of Supervisors to disapprove the action of the Commission received only ten votes; two-thirds of the membership of the Board is twelve. Therefore, the action of the Commission was not disapproved, neither was it approved, for even if we take it that those who voted against disapproval at least tacitly voted for the approval of the action of the Commission, there were only eight who so voted, and for that reason the action of the Commission was not approved, and by force of the same reasoning the appeal has not been disposed of and is still pending.

It may be true that such a construction permits less than two-thirds of the Board of Supervisors to suspend a ruling of the Commission for an indefinite period but we must be guided by the language of the Charter and not the results thereof. To hold that the failure of a motion to disapprove to receive a two-thirds vote was an approval by the Board of the action of the Commission would be correct if the act did not contain the additional language "*and by a majority of all the members of the board, may approve the action of the Commission.*" It is a well-settled rule of statutory construction that effect must be given to every provision of the statute, and to rule that the action of the Board in the instant case was a disapproval of the action of the Commission would be practically ignoring the above-quoted language.

It may well be that those who framed the Charter provision had in mind the fact that when twenty per cent of the owners of the areas affected filed their protests with the Board of Supervisors, that the property should not be rezoned without definite action by the Board ordering it done.

When the appeal was perfected the Board itself became a zoning body, and that to the end that due weight should be given to the finding of the Planning Commission that finding would be followed if a majority of the Board concurred in it, but if the Board desired to adopt a course contrary to that of the Commission it would take two-thirds of the members to adopt it. However, irrespective of the reason for the rule, we find the rule written into the Charter and must follow it.

I may add in passing that under the provisions of the new Charter the Board of Supervisors is limited to "disapproval."

You are, therefore, advised that in the instant case the appeal has not been disposed of and remains in your Board awaiting the vote to approve or disapprove provided for in the Charter, and until it does the ruling of the Planning Commission stands suspended. As to the necessity of a motion to approve after one to disapprove has failed to receive the requisite number of votes, you are advised that such a motion is not necessary but would be in order if offered.

Respectfully,

JOHN J. O'TOOLE, City Attorney.

Motion.

Supervisor Roncovieri moved the following:

Motion to Amend.

Supervisor McSheehy moved to amend by reducing the amount of the bond issue from \$3,500,000 to \$3,000,000.

Frank MacDonald, representing the Building Trades Council, was heard in opposition to the reduction, asking that the Board of Supervisors vote it down and thereby keep faith with the Committee on Unemployment Relief and the people of San Francisco.

George Skaller, representing the Civic League of Improvement Clubs, urged that the bond issue be reduced to \$2,000,000.

Supervisor Garrity thereupon moved as an amendment that the bond issue be reduced to \$2,000,000.

City Attorney John O'Toole being called upon, advised that the Board has no power to make a horizontal reduction in the estimates

of the School Department, but must specify one or more schools to be stricken from the building program.

Whereupon, his Honor Mayor Rossi declared the proposed amendments out of order.

Letter of Appreciation From Mrs. Wm. C. Hassler.

The following was presented and read by the Clerk:

San Francisco, September 27, 1931.

To the Honorable Board of Supervisors.

Dear Sirs: Permit me to extend to you my heartfelt appreciation for the wonderful acts of kindness shown to me in my sad hour of bereavement at the loss of a darling pal and beloved husband.

The honor and esteem shown him will always be a very dear memory to me, as it showed the respect in which he was held by all who knew his true worth and loved him.

To me my loss is unbearable at times, but when I think just how his friends also grieve for him, I try to think that he lived a good, full life and reached the *highest* heights that a man can attain, and that his work was done and he was called to his Maker to attain greater heights in the world beyond the grave.

It pleased me immensely that you named the San Francisco Health Farm, "The Hassler Health Home," and may the good work done there progress rapidly and attain the high ideals of perfection that was one of Dr. Hassler's aims and ambitions.

His work was really not finished here, but with the aid of your Honorable Board, I am sure that the San Francisco Board of Health will be a leader, second to none in the United States and civilized world.

Again thanking you all for the love and respect shown to my beloved husband, and hoping that you will all continue to respect the memory of an ardent worker and faithful citizen, believe me,

Sincerely yours,

MRS. WM. C. HASSLER.

Action Deferred.

The following bills were presented by Supervisor Gallagher and made a *Special Order of Business* for 4 p. m. Tuesday, October 13, 1931:

Creating Purchaser's Revolving Fund.

Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the creation and operation of a "Purchaser's Revolving Fund," for the issuance of all purchase orders and the receiving and checking of all bills by the Purchaser of Supplies, for the preparation and issuance of all warrants by the Auditor, and for the transfer of employees to the Bureau of Supplies.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. There is hereby created and established in the treasury of the City and County of San Francisco a revolving fund to be known and called the "Purchaser's Revolving Fund." Said fund shall consist of such specific appropriations as the Board of Supervisors may, from time to time, make or set aside for the use of said fund, as well as all other moneys that may be made available for such fund on transfers, as provided by Charter, and on earned discounts. The sum of one thousand dollars (\$1000) is hereby set aside and appropriated to the credit of said fund as an initial appropriation thereto.

Section 2. All purchase orders for materials, supplies and equipment which are to be purchased by or through the Bureau of Supplies shall be issued by the Bureau of Supplies upon requisitions of the various departments; provided, that wherever the Purchaser of Supplies shall deem it necessary or advantageous, on the basis of price conditions, for the City and County to make emergency or quantity purchases of materials or supplies in advance of departmental requisitions and not in excess of departmental needs, he shall issue a Purchaser of

Supplies requisition therefor. The Purchaser of Supplies shall not issue a purchase order, and no purchase order except those issued outside the City and County for works or projects outside the City and County, or by departments not required to purchase through, or for things not to be purchased through, the Bureau of Supplies, shall be binding or in force unless the Auditor shall endorse thereon his certificate that there remains unexpended and unapplied a balance of the appropriation or funds applicable thereto sufficient to pay the estimated expense of executing such purchase order, and the Auditor shall encumber the appropriation or fund with the estimated expense of executing the purchase order.

Section 3. The Purchaser of Supplies, with the approval of the Auditor, shall establish such rules and regulations relative to the procedure of handling bills, invoices, claims or demands for materials, supplies, or equipment—hereinafter designated as “bills”—as to vest the Purchaser of Supplies with authority and responsibility for the receiving and checking of all bills and for the prompt payment, through the Purchaser's Revolving Fund, of bills on which discounts may be secured.

Section 4. All bills for materials, supplies and equipment furnished to the City and County on the basis of contracts or purchase orders shall be transmitted by the vendor to the Purchaser of Supplies. Each such bill shall be verified by the Purchaser, who shall check prices, quantities, extensions and footings thereon, and shall attach thereto a goods-received report from the head of the department receiving such materials, supplies or equipment, upon which the head of such department shall approve the bill to be filed for the quantity of materials, supplies or equipment received by his department, at the price or prices specified in the contract or purchase order.

The Purchaser of Supplies shall transmit all such bills to the Auditor after approving and verifying the same as specified herein. The Auditor shall audit such bills and shall prepare all warrants in payment of bills approved by him, excepting, however, bills paid out of the Purchaser's Revolving Fund, as hereinafter provided. On the completion of proceedings and advertising, if any, required by the Charter for the approval and payment of claims and warrants, the Auditor shall transmit copies of vendors' bills to the Purchaser of Supplies and to the receiving department for their records.

The Auditor shall establish such rules and regulations relative to the procedure of approving bills and drawing warrants in payment thereof as he shall deem necessary.

Section 5. Bills to be paid by the Purchaser of Supplies out of the Purchaser's Revolving Fund shall be paid by a warrant on such fund drawn and signed by the Purchaser of Supplies and approved by the Chairman of the Finance Committee and the Auditor. After a bill has been paid from the Purchaser's Revolving Fund the Purchaser of Supplies shall stamp on the face of each copy of said bill a notice that the bill has been paid from the Purchaser's Revolving Fund. Transfers shall be made from, or warrants shall be drawn on, the proper funds or appropriations in such manner as shall be prescribed by the Auditor, and made payable to the Purchaser's Revolving Fund for the reimbursement of such fund, and shall be for the gross amount of each such bill.

Section 6. The Purchaser of Supplies shall maintain appropriate accounting records of the transactions of the Purchaser's Revolving Fund to show cash and unencumbered balances, amounts of appropriations and transfers thereto, and from which budget item or fund, if any, each such appropriation or transfer was made; disbursements therefrom, and to which fund, account, department or budget item such disbursements are to be charged, and the value and the amount of discount earned to be accumulated and retained in the Purchaser's Revolving Fund. The Purchaser of Supplies shall file a report with the Auditor monthly, showing the transactions handled through such fund during the preceding month. The forms, records and procedure

established by the Purchaser of Supplies and the Auditor for the ordering of materials, supplies and equipment, and the recording of transfers, appropriations and payments to and from the Purchaser's Revolving Fund are hereby approved and may be changed only on the joint approval of the Auditor and the Purchaser of Supplies.

Section 7. Employees of those departments required to make purchases through the Bureau of Supplies who are exclusively performing the duties of requisitioning, ordering, receiving or checking of materials, supplies and equipment, or the receiving, checking and payment of bills therefor, shall, by the terms of this ordinance, be transferred to and be deemed employees of the Bureau of Supplies.

Section 8. This ordinance shall take effect immediately.

In re Preparation of Payrolls and Pay Checks or Warrants.

Also, Bill No. ———, Ordinance No. ——— (New Series), as follows:

Providing for the preparation of payrolls and pay checks or warrants by the Auditor, the maintenance of time records by the several departments, and the distribution of pay checks by the several department heads or their designated representatives.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Auditor shall prepare all time rolls and payrolls for the various departments of the City and County and pay checks for the employees thereof. A "skeleton" time roll, together with a payroll based thereon and pay warrants to accompany each such payroll, shall be prepared for each department or office as a unit, or for each operating subdivision thereof, as requested by the head of any department or office on the basis of the assembly or distribution points for the various employments in each such department or office; provided, however, that the Auditor, by written regulation, may authorize the head of any department having employees engaged in work outside of the City and County, or engaged on construction activities, or which by the circumstances of departmental employment has a large number of changes in employment, to temporarily continue the preparation of payrolls for such employments in such department. The term "department head" as used in this ordinance shall be construed to mean the officer, board or commission having the charge and management of a separate department or office of the City and County.

Section 2. Stencils, addressograph plates or other mechanical system for preparing time and payroll records, together with mechanical office equipment maintained in the several departments for payroll or time roll purposes, shall be transferred to the Auditor's office by the Purchaser of Supplies. Clerical employees heretofore assigned to such work in the several departments on a full time basis, or who perform such duties for a major portion of their time, shall be transferred to the Auditor's office by the Civil Service Commission. Such reallocation of positions shall not adversely affect the civil service rights of any incumbent regularly holding any such position.

Section 3. Time sheet or time roll forms as established by the Committee on Uniform Accounting (Controller) shall be prepared in the Auditor's office for each department or office, or for each operating subdivision thereof, and shall be transmitted by the Auditor to the department head concerned in advance of the first date on which time is to be recorded on such time rolls. Each such time roll shall show the name, civil service classification and number, and the rate of pay of each employee included thereon.

Section 4. Each department or office, through the head thereof or an employee or employees designated by such head, shall maintain a daily check and a daily posting to the time roll of the time worked by its employees. All overtime for which extra pay is allowed, and vacations, sick leaves and other allowable absences for which no deduction in pay is required, together with leaves, suspensions and other absences without pay, shall be reported by the departments to

the Auditor at such times and in such manner as the Auditor, by regulation, may require. At the close of the period of time covered by the time roll, departmental timekeepers shall total the time worked, post the amounts of deductions or allowances other than the retirement fund, and distribute the amount of time and pay by funds, appropriations and objects of expenditure, in accordance with regulations established by the Auditor.

Section 5. Each time roll, when completed as required by Section 4 of this ordinance, shall be certified as correct by the person responsible for the keeping of such time roll and by the department head, and shall be delivered to the secretary of the Civil Service Commission for examination and approval. Any item on any such time roll disapproved shall be taken up by the secretary of the Civil Service Commission with the department concerned, on a standard form prescribed by said Commission and approved by the Auditor. The time rolls approved by the secretary of the Civil Service Commission, with notation thereon of any item disapproved, shall be then certified as approved by the secretary of the Commission and transmitted to the Auditor.

Section 6. Payrolls and pay warrants for each department or office, and for each operating subdivision thereof, shall be prepared by the Auditor on a suitable payroll machine.

Section 7. The payroll and pay warrants for each department and office, or operating subdivision thereof, shall be delivered to such person or persons as the head of the department shall, in writing, filed with the Auditor, authorize to receive the same, and upon the delivery of the same, said person shall receipt to said Auditor for said payroll and said pay warrants. The head of the department shall thereupon cause such pay warrants to be delivered to the respective payees named therein at, or as near as possible to, the places of employment of said employees. Each employee, on receipt of his pay warrant, shall sign the payroll opposite his name, and each such payroll, when completed by the signature of each employee to whom a pay warrant has been delivered, shall be returned by the head of the department to the Auditor, together with any pay warrants which, for any reason, cannot be delivered, and notation as to the reason for such non-delivery.

Section 8. This ordinance shall take effect immediately.
